The total estimated

program cost was \$950 million. Major Defense Equipment (MDE) constituted \$425 million of this total.

This transmittal notifies: 1) replacement of the previously notified non-MDE EGI with SAASM for, twenty-four (24) MDE EGI with SAASM; and 2) replacement of the previously notified twenty (20) MDE T-700-GE-401C engines for twenty (20) MDE T-700-401D engines. The following non-MDE is also included in this notification: Infrared Zoom Laser Illuminator Designators (IZLID); AN/PYQ-10 Simple Key Loaders (SKL); and other related elements of logistics and program support. The estimated MDE value will increase by \$50 million to a revised \$475 million. However, this increase will not cause an increase in the estimated total case value, which will remain \$950 million.

(iv) *Significance*: This notification is being provided as the additional items were not enumerated in the original notification. The proposed sale will improve Spain's capability to meet current and future threats. This proposed sale will provide the capability to perform anti-surface and anti-submarine warfare missions along with the ability to perform secondary missions including vertical replenishment, search and rescue, and communications relay, and will bolster the Spanish Navy's ability to support NATO and remain interoperable with the U.S. and the NATO alliance.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of the U.S. by helping to improve the security of a NATO Ally which is an important force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology Statement contained in the original

notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: October 25, 2024

POLICY JUSTIFICATION

Poland—Mobile Ground Control Approach Systems

The Government of Poland has requested to buy mobile Ground Control Approach (GCA–2000) systems, which consist of ultra-high frequency radios; AN/UPX interrogators; radio navigation equipment; test equipment; precision navigation; spare and repair parts; consumables; accessories; warranties; publications and technical documentation; personnel training and training support; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$105 million.

This proposed sale will support the foreign policy goals and national security of the U.S. by improving the security of a NATO Ally that is a force

for political and economic stability in Europe.

The proposed sale will improve Poland's capability to meet current and future threats by bolstering its capabilities in air traffic control and reinforcing its commitment to provide secure and effective aviation services in accordance with international norms, while expanding its national defense capabilities and supporting the common defense of NATO. Poland will have no difficulty absorbing these additional systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be L3Harris, located in Melbourne, FL. There is no known offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
