**Abstract:** Reclamation delivers Colorado River water to water users for diversion and beneficial consumptive use in the States of Arizona, California, and Nevada. The Consolidated Decree of the United States Supreme Court in the case of *Arizona v. California, et al.*, entered March 27, 2006 (547 U.S. 150 (2006)), requires the Secretary of the Interior to prepare and maintain complete, detailed, and accurate records of diversions of water, return flow, and consumptive use and to make these records available at least annually.

The information collected ensures that a State or a water user within a State does not exceed its authorized use of Colorado River water. Water users are obligated by provisions in their water delivery contracts to provide Reclamation information on diversions and return flows. Reclamation

determines the consumptive use by subtracting return flow from diversions or by other engineering means.

Revisions are being made to this information collection to eliminate Form LC–72B, “Fee for Diversions of Colorado River Water for Municipal, Industrial, and Domestic Uses in the State of [Enter State].” This form is no longer required. The form number of Form LC–72A, “Diversions of Colorado River Water and Return Flow for Municipal, Industrial, Domestic, and Irrigation Uses in the State of [Enter State],” will be revised to Form LC–72 as the elimination of Form LC–72B removes the need to differentiate between Form LC–72A and Form LC–72B.

**Title of Collection:** “Diversions, Return Flow, and Consumptive Use of Colorado River Water in the Lower Colorado River Basin.”

**OMB Control Number:** 1006–0015.

**Form Number:** LC–72, Custom Forms.

**Type of Review:** Revision and renewal of a currently approved collection.

**Respondents/Affected Public:** The respondents will include the Lower Basin States (Arizona, California, and Nevada), local and Tribal entities, water districts, and individuals that use Colorado River water.

**Total Estimated Number of Annual Respondents:** 84.

**Total Estimated Number of Annual Responses:** 491.

**Estimated Completion Time per Response:** See table.

**Total Estimated Number of Annual Burden Hours:** 103 hours.

**Respondent’s Obligation:** Required to obtain or retain a benefit.

**Frequency of Collection:** Monthly, annually, or otherwise as stipulated by the water user’s Colorado River water delivery contract with the Secretary of the Interior.

**Total Estimated Annual Non-hour Burden Cost:** None.

Frequency of data collection (monthly/annual)	Form No.	Number of respondents	Minutes/response	Number responses/respondent	Total responses/year	Total hours/year
Annual .....	LC–72 .....	20	10	1	20	3

<b>Total .....</b>	.....	<b>84</b>	.....	.....	<b>491</b>	<b>103</b>

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
