

importance.¹ Under the GSIB surcharge rule, a firm must calculate its GSIB score using a specific formula (method 1). Method 1 uses five equally weighted categories that are correlated with systemic importance—size, interconnectedness, cross-jurisdictional activity, substitutability, and complexity—and subdivided into twelve systemic indicators.

A firm divides its own measure of each systemic indicator by an aggregate global indicator amount. A firm’s method 1 score is the sum of its weighted systemic indicator scores expressed in basis points. A firm that calculates a method 1 score of 130 basis points or more is identified as a GSIB under the GSIB surcharge rule. The GSIB surcharge for a firm is the higher

of the GSIB surcharge determined under method 1 and a second method, method 2, which is calculated based on measures of size, interconnectedness, cross-jurisdictional activity, complexity, and the firm’s reliance on short-term wholesale funding.²

The aggregate global indicator amounts used in the score calculation under method 1 are based on data collected by the Basel Committee on Banking Supervision (BCBS). The BCBS amounts are determined based on the sum of the systemic indicator amounts reported by the 75 largest U.S. and foreign banking organizations as measured by the BCBS, and any other banking organization that the BCBS includes in its sample total for that year. The BCBS publicly releases these

amounts, denominated in euros, each year.³ Pursuant to the GSIB surcharge rule, the Board publishes the aggregate global indicator amounts each year denominated in U.S. dollars using the euro-dollar exchange rate provided by the BCBS.⁴ Specifically, to determine the 2025 aggregate global indicator amounts, the Board used the year-end 2024 euro-denominated indicator amounts published by the BCBS and multiplied each of the euro-denominated indicator amounts by 1.0389, the euro to U.S. dollar spot exchange rate on December 31, 2024.⁵

The aggregate global indicator amounts expressed in U.S. dollars for purposes of the 2025 method 1 score calculation under § 217.404(b)(1)(i)(B) of the GSIB surcharge rule are:

SUPPLEMENTARY INFORMATION:

Contents

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register**

concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collections

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Enrollment Application for Physician and Non-Physician Practitioners; *Use:* The Social Security Act (Act) requires providers and suppliers to furnish information concerning the amounts due and the identification of individuals or entities that furnish medical services to beneficiaries before allowing payment. The primary function of the CMS–855I Medicare enrollment application for physicians and non-physician practitioners is to gather information from an individual provider or supplier that tells us who he/she is, whether he/she meets certain qualifications to be a Medicare health care provider or supplier, where he/she practices or renders services, and other information necessary to establish correct claims payments.

The collection and verification of this information is the first line defense to defend and protect our beneficiaries from illegitimate physicians, non-physician practitioners, and other eligible professionals and to protect the Medicare Trust Fund against fraud. It gathers information that allow Medicare contractors to ensure only legitimate physicians, non-physician practitioners, and other eligible professionals enroll in the Medicare program, and are not sanctioned from the Medicare and/or Medicaid program(s), or debarred, or excluded from any other Federal agency or program. This is the sole instrument implemented for this purpose. *Form Number:* CMS–855I (OMB control number 0938–1355); *Frequency:* Occasionally; *Affected Public:* State, Local, or Tribal Governments, Private Sector (not-for-profit institutions); *Number of Respondents:* 813,975; *Number of Responses:* 813,975; *Total Annual Hours:* 1,364,716. (For policy questions regarding this collection contact Frank Whelan at 410–786–1302).
