

identification efforts and coordinate meetings. On March 5 and 13, 2025, the NRC staff held closed government-to-government virtual tribal information meetings. The purpose of the meetings was to engage with and hear from Tribal representatives invited to participate in and consult on the Section 106 process. On May 2, 2025, the NRC staff invited the Tribes to participate in a visit to the Dewey-Burdock ISR site. On June 11, 2025, the NRC staff held a Tribal site visit as part of its ongoing Section 106 consultation. The purpose of the Tribal site visit was to provide federally-recognized Tribes (i) an overview of the site and proposed ISR facilities, (ii) an overview of the area of potential effects, (iii) an overview of the areas where cultural resources have been identified

in relation to potential surface disturbances, and (iv) answer questions from and gather information from Tribes about sites of religious and cultural significance to them and potential effects on these from the undertaking. By letter dated September 30, 2025, the NRC staff transmitted the draft PA, developed in accordance with 36 CFR 800.14(b)(3), to the Tribes, BLM, EPA, ACHP, SD SHPO, and Powertech for review and comment. In the letter, the NRC staff also proposed coordinating a Tribal Cultural Resource Survey to be conducted after execution of the new PA using the draft survey methodology included as Appendix D of the draft PA. The NRC staff also requested comments on the draft tribal survey methodology. On November 19, 2025, the NRC staff

transmitted the draft PA and draft tribal survey methodology to NDN Collective for review and comment.

The NRC staff has updated the draft PA and draft tribal survey methodology based on the comments received. The NRC is requesting public comment on the updated draft PA. The NRC will consider these comments before finalizing the PA. The draft PA is available in ADAMS under Accession Nos. ML25346A149, ML25346A151, and ML25346A150.

IV. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

| Document description | ADAMS Accession No. |
|--|------------------------|
| Powertech's updated license renewal application for the Dewey-Burdock uranium recovery facility in Custer and Fall River counties, South Dakota, dated March 31, 2025. | ML25091A216 (package). |
| NRC Letter to SD SHPO initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24291A051. |
| NRC Letter to BLM initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24291A050. |
| NRC Letter to EPA initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24291A056. |
| NRC Letter to ACHP initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24291A049. |
| NRC Letter to Powertech initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24291A094. |
| NRC Letters to Consulting Tribes initiating the NHPA Section 106 Process, dated January 24, 2025 | ML24290A178 (package). |
| NRC Letter to NDN Collective initiating the NHPA Section 106 Process, dated March 14, 2025 | ML25067A003. |
| BLM Letter to NRC Designating NRC as Lead Agency for the Section 106 Process, dated March 7, 2025 | ML25071A049. |
| NRC Summary of March 2025 Virtual Tribal Information Meetings, dated March 24, 2025 | ML25077A115 (package). |
| NRC Summary of June 11, 2025, Tribal Site Visit, dated August 1, 2025 | ML25213A145. |
| NRC Letters to Consulting Tribes transmitting the Draft Section 106 Programmatic Agreement, dated September 30, 2025. | ML25273A335 (package). |
| NRC Letters to BLM, EPA, ACHP, SD SHPO, and Powertech transmitting the Draft Section 106 Programmatic Agreement, dated September 30, 2025. | ML25273A367 (package). |
| ACHP Letter to NRC regarding Participation in the Section 106 Process, dated October 14, 2025 | ML25335A035. |
| EPA Letter to NRC Designating NRC as Lead Agency for the Section 106 Process, dated November 14, 2025 | ML25335A023. |
| NRC Letter to NDN Collective transmitting the Draft Section 106 Programmatic Agreement, dated November 19, 2025. | ML25318A141 (package). |
| Updated Draft Section 106 Programmatic Agreement for the Powertech License Renewal Application for the Dewey-Burdock Project. | ML25346A149. |
| Updated Draft Section 106 Programmatic Agreement Appendices for the Powertech License Renewal Application for the Dewey-Burdock Project. | ML25346A151. |
| Appendix D—Updated Draft Tribal Cultural Resource Survey Methodology for the Powertech License Renewal Application for the Dewey-Burdock Project. | ML25346A150. |

Dated: December 17, 2025.

For the Nuclear Regulatory Commission.

Theodore Smith,

Acting Chief, Environmental Technical Review Branch 1, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety, and Safeguards.

[FR Doc. 2025-23415 Filed 12-18-25; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2025-0001]

Sunshine Act Meetings

TIME AND DATE: Weeks of December 22 and 29, 2025 and January 5, 12, 19, and 26, 2026. The schedule for Commission

meetings is subject to change on short notice. The NRC Commission Meeting Schedule can be found on the internet at: <https://www.nrc.gov/public-involve/public-meetings/schedule.html>.

PLACE: The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please contact the Reasonable Accommodations Resource by email at ReasonableAccommodations.Resource@nrc.gov. Determinations on requests for

reasonable accommodation will be made on a case-by-case basis.

STATUS: Public.

Members of the public may request to receive the information in these notices electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555, at 301-415-1969, or by email at Betty.Thweatt@nrc.gov or Samantha.Miklaszewski@nrc.gov.

MATTERS TO BE CONSIDERED:

Week of December 22, 2025

There are no meetings scheduled for the week of December 22, 2025.

Week of December 29, 2025—Tentative

There are no meetings scheduled for the week of December 29, 2025.

Week of January 5, 2026—Tentative

There are no meetings scheduled for the week of January 5, 2026.

Week of January 12, 2026—Tentative

There are no meetings scheduled for the week of January 12, 2026.

Week of January 19, 2026—Tentative

There are no meetings scheduled for the week of January 19, 2026.

Week of January 26, 2026—Tentative

There are no meetings scheduled for the week of January 26, 2026.

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Wesley Held at 301-287-3591 or via email at Wesley.Held@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: December 17, 2025.

For the Nuclear Regulatory Commission.

Wesley W. Held,

Policy Coordinator, Office of the Secretary.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461; NRC-2024-0046]

Constellation Energy Generation, LLC; Clinton Power Station, Unit 1; License Renewal and Record of Decision

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued Renewed Facility Operating License No. NPF-62 to Constellation Energy Generation, LLC (Constellation or the licensee) for Clinton Power Station, Unit 1 (Clinton). In addition, the NRC has prepared a record of decision (ROD) that supports the NRC's decision to issue Renewed Facility Operating License No. NPF-62.

DATES: Renewed Facility Operating License No. NPF-62 was issued on December 16, 2025.

ADDRESSES: Please refer to Docket ID NRC-2024-0046 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0046. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Vaughn Thomas, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-5897; email: Vaughn.Thomas@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Discussion**

Notice is hereby given that the NRC has issued Renewed Facility Operating License No. NPF-62 to Constellation for Clinton. Constellation is the operator of the facility. Renewed Facility Operating License No. NPF-62 authorizes Constellation to operate Clinton at reactor core power levels not in excess of 3,473 megawatts thermal, in accordance with the provisions of the Clinton renewed facility operating license and the technical specifications. Notice is also given that the ROD that supports the NRC's decision to issue Renewed Facility Operating License No. NPF-62 is available, and its location is listed in the "Availability of Documents" section of this document.

As discussed in the ROD and the final supplemental environmental impact statement (SEIS), published as NUREG-1437, Supplement 63, "Generic

Environmental Impact Statement for License Renewal of Nuclear Plants Regarding License Renewal for Clinton Power Station, Unit 1, Final Report," dated August 2025, the final SEIS documents the NRC staff's environmental review, including the recommendation that the adverse environmental impacts of license renewal (LR) for Clinton are not so great that preserving the option of LR for energy-planning decisionmakers would be unreasonable. This recommendation is based on (1) the analysis and findings in the NRC's Generic Environmental Impact Statement for License Renewal of Nuclear Plants, (2) information provided in the environmental report submitted by Constellation, as supplemented, (3) the NRC staff's consultation with Federal, State, Tribal, and local agencies, (4) the NRC staff's independent environmental review, and (5) the NRC staff's consideration of public comments received during the scoping process and on the draft SEIS.

Clinton is a boiling water reactor located on Clinton Lake in DeWitt County, approximately 6 miles east of the city of Clinton in east-central Illinois. Constellation submitted its application for the renewed license, "Clinton Power Station, Unit 1 Application for Renewed Operating License," on February 14, 2024, as supplemented by letters through April 10, 2025 (see "Availability of Documents" section of this document). The NRC staff has determined that Constellation's application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. As required by the Act and NRC regulations in title 10 of the *Code of Federal Regulations* (10 CFR), the NRC has made appropriate findings, which are set forth in the renewed license.

A public notice of the NRC's acceptance for docketing of the LR application and an opportunity to request a hearing was published in the **Federal Register** on April 18, 2024 (89 FR 27805).

For further details with respect to this action, see: (1) Constellation's LR application for Clinton, dated February 14, 2024, as supplemented by letters through April 10, 2025; (2) the NRC's safety evaluation, dated August 2025; (3) the NRC's final SEIS, dated August 2025; and (4) the NRC's ROD, dated December 16, 2025.

II. Availability of Documents

The documents identified in the following table are available to
