BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA–2025–HQ–0135]

Submission for OMB Review; Comment Request

AGENCY: Department of the Army,
Department of Defense (DoD).

ACTION: 30-Day information collection
notice.

SUMMARY: The DoD has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by January 28, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Reginald Lucas, (571) 372–7574,
whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION: *Title; Associated Form; and OMB Number:* Exchange Employee and Retirement Benefit System; Exchange Forms 1450–011 and 1700–012; OMB Control Number 0702–0139.

Type of Request: Extension.
Number of Respondents: 10,530.
Responses per Respondent: 1.
Annual Responses: 10,530.
Average Burden per Response: 20 minutes.

Annual Burden Hours: 3,510.
Needs and Uses: The information collection requirement is necessary to administer several different benefits, pay, and retirement entitlements to eligible Exchange associates, former associates (retirees), their dependents, beneficiaries, spouses, and ex-spouses.

Affected Public: Individuals or households.

Frequency: On occasion.
Respondent's Obligation: Voluntary.
DoD Clearance Officer: Mr. Reginald Lucas.

Dated: December 19, 2025.

Stephanie J. Bost,

Record of Decision for Real Property Master Plan Implementation at Military Ocean Terminal Sunny Point, North Carolina (ID# EISX–007–21–001– 1751989587)

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army (Army) announces the availability of a Record of Decision (ROD) regarding the proposed implementation of real property actions at Military Ocean Terminal Sunny Point (MOTSU), North Carolina. In accordance with the National Environmental Policy Act (NEPA), the ROD identifies the Army's selected alternative, the basis for its selection, the environmentally preferred alternative, and the mitigation and protective measures the Army commits to implement with the selected alternative. The ROD is based on the results of the Army's Final Environmental Impact Statement (EIS), which analyzed the potential effects of the implementation of various projects needed for the safety and mission of the facility and provides an analysis of the effects of implementing real property maintenance, repair, upgrade, and development actions. The proposed action is needed to address improvements to real property related to explosive safety, waterfront maintenance, security, and linear infrastructure. The projects and programs address compliance with federal, state, DoD, and Army standards vital to safety, security, and other mission needs. The EIS includes a final Finding of No Practicable Alternative (FONPA) prepared because portions of the proposed action occur in floodplains or involve construction in wetlands, or both.

FOR FURTHER INFORMATION CONTACT:

Frederick Rice, Director, Public and Congressional Affairs Office, Military Surface Deployment and Distribution Command; telephone: (618) 220–6284; email: frederick.l.rice.civ@army.mil.

SUPPLEMENTARY INFORMATION: MOTSU is the Army Transportation Command's East Coast strategic ammunition port and is among DoD's seaports supporting

global operations. The proposed action includes barricade safety, waterfront maintenance, Pleasure Island Explosive Safety Clear Zone security, linear infrastructure (e.g., roads, rail, utilities, firebreaks), stormwater mitigation, and cantonment area infill. The proposed action also includes modernizing operation areas and general repair and maintenance of infrastructure, to include facilities, wharves, roads, rail, utilities, and perimeter security. The proposed projects address critical mission requirements and are planned for fiscal years 2026 through 2031.

The FEIS—published on July 9, 2025, and prepared in parallel with federal consultation processes (e.g., section 106 of the National Historic Preservation Act and section 7 of the Endangered Species Act)—evaluated the potential effects associated with implementing the proposed activities. The Army evaluated two alternatives that would meet the Proposed Action's purpose and need:

1. *Full Implementation Alternative (Preferred Alternative):* This alternative would implement the complete suite of 14 projects that are required improvements to real property related to explosive safety, waterfront maintenance, security, and linear infrastructure.

2. *Partial Implementation Alternative:* This alternative would implement a reduced set of 12 projects. Although the Partial Implementation Alternative would not address all requirements as comprehensively as the Full Implementation Alternative, it would substantially improve conditions and adequately address immediate installation needs.

Under the No-Action Alternative, the projects would not be implemented. While the No-Action Alternative would not satisfy the Proposed Action's purpose and need, in accordance with NEPA regulations, the No-Action Alternative provides a comparative baseline for gauging the Action Alternatives' potential effects.

The Final EIS determined the Full Implementation Alternative and Partial Implementation Alternatives would have potentially significant adverse effects on wetlands. The Army prepared a Finding of No Practicable Alternative (FONPA) addressing potential effects on wetlands and floodplains. The FONPA is included as an appendix to the Final EIS. The Final EIS concluded the adverse effects on all analyzed resources other than wetlands would be less than significant under either action alternative.

Based on the analysis presented in the Final EIS, the Full Implementation Alternative is the Army's selected
