#### SUPPLEMENTARY INFORMATION:

##### I. Background

On November 15, 2021 (86 FR 63051), to enhance consultation and collaboration with Tribal governments, HUD published a notice in the **Federal Register** announcing its intention to establish its first Tribal advisory committee known as the "Tribal Intergovernmental Advisory Committee" (TIAC). The notice also solicited Tribal feedback on a proposed TIAC structure and its functions. On March 31, 2022 (87 FR 18807), HUD published a notice in the **Federal Register** that announced the final structure of the TIAC and requested the submission of Tribal nominations to the TIAC. HUD selected 15 members for its inaugural TIAC, beginning in January 2023.

On April 8, 2024 (89 FR 24484), HUD published a notice in the **Federal Register** requesting submission of Tribal nominations to the TIAC for two-year terms to begin in January 2025 (replacing eight positions whose terms were set to expire at the end of December 2024).

On May 19, 2025 (90 FR 21326), HUD published a notice in the **Federal Register** requesting submission of Tribal nominations to the TIAC for two-year terms to begin in January 2026 (filling eight vacant positions).

##### II. The Tribal Intergovernmental Advisory Committee

Today's notice announces the membership of the TIAC starting

January 2026 (returning members as well as new members). The purpose of the TIAC is to further facilitate intergovernmental communication between HUD and Tribal leaders of federally recognized Tribes on all HUD programs, to make recommendations to HUD regarding current program regulations that may require revision, as well as suggest rulemaking methods to develop such changes, and to advise in the development of HUD's American Indian and Alaska Native (AI/AN) housing priorities. The function of TIAC is not to replace Tribal consultation, but rather to serve as a tool to help supplement it.

In making the selections for membership on the TIAC, HUD's goal was to establish a committee whose membership reflects a balanced representation of small, medium, and large Indian tribes across Indian Country. In addition to the Tribal representatives on the committee, there will be several HUD representatives, each representing various program offices, on the committee.

HUD is announcing the Tribal Committee Members in this Notice. However, each Committee Member should have an eligible Alternate in queue in case the Committee Member is unable to attend a particular committee meeting. As a reminder, the Alternate must meet the same eligibility criteria required of the selected Committee Member, specifically, that they must be either a duly elected Tribal official or Tribal employee. The Alternate cannot be a Tribally Designated Housing Entity employee. In the absence of a Committee Member, the Alternate will have the same rights, responsibilities, duties, and functions as a Committee Member during meetings. Each Committee Member has the discretion to decide who will best represent them in their absence. A Committee Member unable to attend any session must inform HUD in writing with an original signature as to whom they have selected to represent them and will specify the term. HUD will review all Alternates before a meeting to confirm that they meet the eligibility criteria for Alternates specified by HUD.

The final list of members of the TIAC is as follows:

#### **Application for a Recordable Disclaimer of Interest for Lands Underlying Portions of the Delta River, Tangle River, and Tangle Lakes, in Alaska**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of application.

**SUMMARY:** On June 12, 2019, the State of Alaska (State) finalized an application

with the Bureau of Land Management (BLM) for a Recordable Disclaimer of Interest (RDI) from the United States for the submerged lands underlying portions of the Delta River, Tangle River, Lower Tangle Lake, Long Tangle Lake, Round Tangle Lake, Tangle Lakes and Upper Tangle Lake south of Delta Junction, in Alaska. An RDI, if issued, would disclaim the United States' interest in the lands underlying the portions of the waterbodies in the RDI application. This notice is to notify the public of the pending RDI application and supporting evidence submitted by the State, and that the BLM is seeking additional information related to the waterbodies in the application.

**DATES:** All comments should be received on or before February 6, 2026. The BLM will issue a decision on the application on or after April 7, 2026.

**ADDRESSES:** The State's RDI application and its attachments may be viewed at: <https://www.blm.gov/programs/lands-and-realty/regional-information/alaska/RDI/tanana>, under the section titled, "Delta River System (Delta River, Tangle Lakes and Tangle River)." Public comments may be mailed, emailed, or hand delivered. Mail comments to: Bureau of Land Management, ATTN: Bettie Shelby, Acting Branch Chief, Lands and Realty (AK-941), 222 West 7th Avenue #13, Anchorage, Alaska 99513; email comments to [bshelby@blm.gov](mailto:bshelby@blm.gov); or hand deliver comments during normal business hours (8 a.m. to 4 p.m. Alaska Time) to the BLM Public Information Center, 222 West 7th Avenue, Anchorage, Alaska 99513.

**FOR FURTHER INFORMATION CONTACT:** Bettie Shelby, Acting Branch Chief, Lands and Realty (AK-941), at 222 West 7th Avenue, #13, Anchorage, Alaska 99513; 907-271-5596; [bshelby@blm.gov](mailto:bshelby@blm.gov); or visit the BLM's RDI website at <https://www.blm.gov/programs/lands-and-realty/regional-information/alaska/RDI>.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** On June 12, 2019, the State filed a final application (AA-95490) for an RDI pursuant to section 315 of the Federal Land Policy and Management Act of 1976 as amended (43 U.S.C. 1745), and the regulations in 43 CFR subpart 1864, which authorize the BLM to issue an

RDI. An RDI is a legal document through which the BLM would disclaim the United States' interest in or ownership of specified lands. This notice of application is to inform the public of the pending application and the State's supporting evidence, as well as to provide the opportunity to comment or provide additional information to the BLM.

The State's RDI application asserts that the waterbodies were navigable in fact on the date of Alaska Statehood, January 3, 1959. As such, the application contends that ownership of the submerged lands underlying the Delta River, Tangle River, Lower Tangle Lake, Long Tangle Lake, Round Tangle Lake, Tangle Lakes and Upper Tangle Lake automatically passed from the United States to the State on the date of Statehood under the Equal Footing Doctrine, the Submerged Lands Act of 1953, the Submerged Lands Act of 1988, Alaska Statehood Act, and other title navigability laws.

The RDI application includes approximately 14,026 acres of submerged lands for the following land descriptions: (1) The Delta River: All submerged lands between the ordinary high-water lines of the left and right banks of the Delta River beginning at the southern boundary of Fort Greely in secs. 24 and 25, T. 14 S., R. 9 E., Fairbanks Meridian (F.M.), and secs. 19 and 30, T. 14 S., R. 10 E., F.M., upstream to the Tangle River within sec. 25, T. 20 S., R. 9 E., F.M.; (2) Tangle River: All submerged lands between the ordinary high water lines of the left and right banks of the Tangle River beginning within sec. 25, T. 20 S., R. 9 E., F.M., upstream to the inlet of Tangle Lake within sec. 8, T. 22 S., R. 9 E., F.M., including; (3) The Tangle Lakes: All submerged lands between the ordinary highwater lines of the Tangle Lakes; including Lower Tangle Lake, Long Tangle Lake, Round Tangle Lake, Tangle Lakes and Upper Tangle Lake.

The BLM is seeking additional information related to the waterbodies in the State's RDI application. Examples of additional information are photographs or videos capturing boats being used on the waterbodies, historical or present-day use diaries, or specific verbal knowledge, whether passed down through the region, or present-day use, information on the type of boat or watercraft used, and information on the time of year boats are, or were, used. In addition to boat use, the BLM is seeking hydrological data and/or photographs that capture waterbody characteristics such as depth, width, obstructions or obstacles, or shallow stream sections.
