

Transmittal No. 25–0G

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(b)(5)(C), AECA)

(i) *Purchaser:* Government of Germany

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 23–26

Date: May 11, 2023

Implementing Agency: Army

(iii) *Description:* On May 11, 2023, Congress was notified by congressional certification transmittal number 23–26 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of sixty (60) CH–47F Block II Cargo Helicopters with customer-unique modifications; one hundred forty (140) T–55–GA–714A engines (120 installed, 20 spares); seventy-two (72) AN/AAR–57 Common Missile Warning Systems (CMWS) (60 installed, 12 spares); and two hundred eighty-four (284) AN/ARC–231A Communications Security (COMSEC) radios (240 installed, 44 spares). Also included were AN/AVR–2B Laser Detecting Sets; AN/APR–39C(V)1 Radar Detecting Sets; AN/ARC–220 High Frequency (HF) radios with electronic counter-countermeasures (ECCM); military Precise Positioning Service (PPS) (to include SAASM or M-Code); Digital Advanced Flight Control Systems (DAFCS); AN/APX–123A Identification Friend or Foe (IFF) transponder; AN/ARN–147 very high frequency (VHS) omnidirectional range and instrument landing system (VOR/ILS); AN/ARN–153 Tactical Air Navigation Systems (TACAN); air data computers; AN/APN–209 radar altimeter systems; AN/PYQ–10 simple key loaders; KIV–77 Mode 4/5 IFF Applique; KY–100M narrowband/wideband terminal COMSEC devices; AN/AVS–6 Night Vision Devices (NVD); IDM–401 Improved Data Modem; air-to-air refueling probes; M134 gun mounts; Infrared Suppression System (IRSS); Engine Air Particle Separator (EAPS); Ballistic Protection System (BPS) with Cockpit; cabin sides; Midas Underfloor COOLS; Extended Range Fuel System (ERFS) 800 gal and 500 gal; Forward Area Refueling Equipment (FARE); Tie Down Materiel/Helicopter Under-Slung Load Equipment (HUSLE) for internal and external loads; rotorbrake; rescue hoists; Fast Rope Insertion/Extraction System (FRIES); Electro Optical Infrared Sensors (EO/IR); crash resistant pilot and troop seats; skis; life rafts; litter straps and fittings; mission equipment (e.g., jungle penetrator; litter basket; Jacob's ladder; Airborne Tactical Extraction Platform (AirTEP); special

tools and test equipment; ground support equipment; airframe and engine spare parts; technical data; publications; Maintenance Work Orders/Engineering Change Proposals (MWO/ECPs); Repair and Return (R&R); technical assistance; airworthiness assistance; transportation of aircraft; training; flight training and maintenance trainers; and other related elements of logistics and program support. The total estimated cost was \$8.5 billion. Major Defense Equipment (MDE) constituted \$3.35 billion of this total.

This transmittal notifies the inclusion of the following MDE items: forty-seven (47) OT–228/U Common Infrared Countermeasures (CIRCM) and one hundred forty-four (144) “EAGLE–M” aviation navigation systems comprised of Enhanced Aviation Global Air Traffic Management (GATM) systems, Localizer Performance with Vertical Guidance (LPV) instruments, and Embedded Global Positioning System (GPS)/Inertial Navigation Systems (INS) (EGIs) with M-code. The following non MDE items will also be included: Multi-Platform Anti-Jam GPS Navigation Antenna-Federated (MAGNA–F), Type Designator: AS–4840; communications systems; and other related elements of logistics and program support. The estimated total cost of the new items is \$0.63 billion. The estimated MDE value will increase by \$0.63 billion to a revised \$3.98 billion but will not require an increase in the estimated total case value. Instead, \$0.63 billion of the available, previously notified non-MDE value will be transferred to the MDE value, causing a decrease in non-MDE value to \$4.52 billion. The estimated total case value will remain at \$8.50 billion.

(iv) *Significance:* This notification is being provided because the additional MDE items were not enumerated in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will improve Germany's capability to meet current and future regional threats, reinforce its ability to maintain regional stability, and increase the defensive capabilities of its military. The sale supports U.S. national security interests by bolstering land defense in Europe.

(v) *Justification:* This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally that is an important force for political and economic stability in Europe.

(vi) *Sensitivity of Technology:* CIRCM is the next-generation lightweight, laser-based, infrared

countermeasure system for rotary-wing, tilt-rotor, and small fixed-wing aircraft. CIRCM provides near spherical coverage of the host platform to defeat infrared-seeking missiles. It receives an angular bearing hand-off from the CMWS or Limited Interim Missile Warning System (LIMWS), and employs a pointing and tracking system that acquires and tracks the incoming missile, and jams the missile using modulated laser energy to degrade the tracking capability of the missile, causing it to miss the aircraft.

The EAGLE–M, also known as EAGLE M+429, contains sensitive technology that provides GPS hardening when loaded with COMSEC keys.

The MAGNA–F antenna nulls unwanted signals using digital processing technology.

The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

(vii) *Date Report Delivered to Congress:* April 23, 2025

April 9, 2025

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 25-10, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Australia for defense articles and services estimated to cost \$1.04 billion. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

Michael F. Miller
Director

2. Policy Justification
3. Sensitivity of Technology

BILLING CODE 6001-FR-C

Transmittal No. 25-10

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Australia

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$1.00 billion
Other	\$.04 billion
TOTAL	\$1.04 billion

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

Up to two hundred (200) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM)

Up to two hundred (200) AIM-120D-3 AMRAAMs

Non-Major Defense Equipment:

The following non-MDE items will be included: AMRAAM containers and support equipment; spare parts, consumables, and accessories;

repair and return support; weapons system support and software; classified software delivery and support; classified publications and technical documentation; transportation support; studies and surveys; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Air Force (AT-D-YAL)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* April 9, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Australia—AIM-120C and AIM-120D Advanced Medium Range Air-to-Air Missiles

The Government of Australia has requested to buy up to two hundred (200) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and up to two hundred (200) AIM-120D-3 AMRAAMs. The following non-MDE items will be included: AMRAAM containers and support equipment; spare parts, consumables and accessories, repair and return support; weapons system support and software; classified software delivery and support; classified publications and technical documentation; transportation support; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$1.04 billion.

This proposed sale will support the foreign policy and national security objectives of the U.S. Australia is one of

our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the Western Pacific. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale will improve Australia's capability to meet current and future threats by protecting and increasing aircraft survivability. Australia will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–10

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM–120D–3 series Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air-launched, aerial intercept, guided missile featuring digital technology and micro-miniature, and solid-state electronics. AMRAAM capabilities

include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets. The AIM–120D–3 features a quadrangle target detection device and an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection, and warhead detonation. Precise positioning will be provided by either Selective Availability Anti-Spoofing Module or M-Code.

2. The AIM–120C–8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air or surface-launched, aerial intercept, guided missile featuring digital technology and micro-miniature, solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets.

3. The AMRAAMs will be integrated on the Royal Australian Air Force (RAAF) combat aircraft platforms, such as the F/A–18, EA–18G, and F–35, along with the ground-based National Advanced Surface-to-Air Missile System (NASAMS).

4. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

6. A determination has been made that Australia can provide substantially the same degree of protection for the

sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

7. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Australia.
