

technical documentation; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$3.50 billion.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a partner country that contributes to political stability and economic progress in the Gulf Region.

The proposed sale of this equipment and support will not alter the military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Kingdom of Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–33

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM–120C–8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air-launched, aerial intercept guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying maneuvering targets.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Kingdom of Saudi Arabia.

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

APR 25 2025

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 25-35, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of the Netherlands for defense articles and services estimated to cost \$2.19 billion. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

Michael F. Miller
Director

BILLING CODE 6001-FR-C

Transmittal No. 25-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of the Netherlands

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$0.95 billion
Other	\$1.24 billion

TOTAL \$2.19 billion

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

- Up to one hundred sixty-three (163) Tomahawk Block V All Up Rounds (AURs)
- Twelve (12) Tomahawk Block IV AURs
- Up to ten (10) Tactical Tomahawk Weapons Control Systems (TTWCS)
- Up to two (2) Tomahawk Block IV telemetry missiles

Non-Major Defense Equipment:

The following non-MDE items will also be included: satellite data link terminals (KIV-18A); integrated secure broadcast systems (KSX-5); communications security devices (KGV-135A); technical, programmatic, engineering, and logistical support for the Tomahawk AUR missiles, TTWCS, and Mission Distribution Software; missile containers; software; hardware; training; training devices; unscheduled missile maintenance; spares; in-service support; communication equipment; operational flight test; publications; engineering and technical expertise to maintain the capability; non-recurring engineering; transportation; and other related elements of logistics and program support.

(iv) *Military Department:* Navy (NE-P-AGR, NE-P-AGS, NE-P-AGT)

(v) *Prior Related Cases, if any:* NE-P-LHV

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* April 25, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

The Netherlands—Tomahawk Land Attack Missiles

The Government of the Netherlands has requested to buy up to one hundred sixty-three (163) Tomahawk Block V All Up Rounds (AURs); twelve (12) Tomahawk Block IV AURs; up to ten (10) Tactical Tomahawk Weapons Control Systems (TTWCS); and up to two (2) Tomahawk Block IV telemetry missiles. The following non-MDE items

will also be included: satellite data link terminals (KIV-18A); integrated secure broadcast systems (KSX-5); communications security devices (KGV-135A); technical, programmatic, engineering, and logistical support for the Tomahawk AUR missiles, TTWCS, and Mission Distribution Software; missile containers; software; hardware; training; training devices; unscheduled missile maintenance; spares; in-service support; communication equipment; operational flight test; publications; engineering and technical expertise to maintain the capability; non-recurring engineering; transportation; and other related elements of logistics and program support. The estimated total cost is \$2.19 billion.

This proposed sale will support the foreign policy goals and national security objectives of the United States (U.S.) by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve the Netherlands' capability to meet current and future threats by utilizing long-range, conventional surface-to-surface missiles with significant standoff range that can neutralize growing threats. The Netherlands will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. There are known offset requirements associated with this sale. See the attached annex for further details.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Tomahawk Block IV and V All Up Round (AUR) is a Tomahawk cruise missile assembled in a canister for surface launch. Tomahawk Block IV and V capabilities include increased system flexibility; improved system response times; improved lethality against an increased target set; improved accuracy; improved anti-jam GPS receiver with

Selective Availability Anti-Spoofing Module (SAASM) capability; enhanced availability due to a 15-year maintenance interval; and two-way communications between missile and strike or missile controllers via ultra-high frequency (UHF) Satellite Communications (SATCOM).

a. The two-way communication capability, provided by the Satellite Data Link Terminal (SDLT), enables mission planners and the strike or missile controllers to issue in-flight missile retargeting commands and receive in-flight missile status and information transmissions.

b. The Tactical Tomahawk Weapon Control System (TTWCS) provides command and control, targeting, mission planning, and distribution functions.

c. The Tomahawk Block IV telemetry missiles are test missiles to be launched from Netherlands' air defense and command frigates to certify the platform ahead of initial operational capability.

d. The SDLT (KIV-18A) inside the Block IV Tomahawk is a UHF SATCOM terminal used for data communications between the missile and strike or missile controller via satellite.

e. The Integrated Secure Broadcast Systems (KSX-5) satellite radio inside the Block V TLAM communicates via the Advanced Communications Architecture (ACA). It provides increased bandwidth, capacity, reliability, and resiliency over the previous SDLT radio. It is used for data communications between the missile and strike or missile controller via satellite and network service provider.

f. The communications security devices (KGV-135A) inside the Block IV telemetry missiles provide telemetry data during a test launch event.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Netherlands can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been

authorized for release and export to the Government of the Netherlands.

BILLING CODE 6001-FR-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DOD-2026-OS-0034]

Proposed Collection; Comment Request

AGENCY: Defense Security Cooperation Agency (DSCA), Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the DSCA announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by March 16, 2026.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Director of Administration and Management, Privacy, Civil Liberties, and Transparency Directorate, Regulatory Division, 4800 Mark Center Drive, Mailbox #24, Suite 0F516, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.
