

Bomb; six (6) MK-82, Inert Bomb; one (1) FMU-139D/B (D-1) Inert Fuze. Also included were Electronic Warfare Systems; Command, Control, Communications, Computer and Intelligence/Communications, Navigational, and Identification (C4I/CNI); Autonomic Logistics Global Support System (ALGS); Operational Data Integrated Network (ODIN); Air System Training Devices; Weapons Employment Capability and other Subsystems, Features, and Capabilities; F-35 unique infrared flares; reprogramming center access; F-35 Performance Based Logistics; software development/integration; aircraft ferry and tanker support; Detector Laser DSU-38A/B, Detector Laser DSU-38A(D-2)/B, KMU-572(D-2)/B Trainer (JDAM), 40 inch Wing Release Lanyard; GBU-53/B SDB II Weapon Load Crew Trainers (WLCT); GBU-53/B SDB II Practical Explosive Ordnance Disposal System Trainers (PEST); AGM-154C-1 JSOW Captive Flight Vehicles; AGM-154C-1 JSOW Dummy Air Training Missiles; AGM-154C-1 JSOW mission planning, integration support and testing, munitions storage security and training, weapon operational flight program software development; integration of the Joint Strike Missile; weapons containers; aircraft and munitions support and test equipment; communications equipment; provisioning, spares and repair parts; weapons repair and return support; personnel training and training equipment; weapon systems software, publications and technical documents; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistical and program support. The estimated total cost was \$12.5 billion. Major Defense Equipment (MDE) constituted \$8.4 billion of this total.

On March 19, 2021, Congress was notified by congressional certification transmittal number 21-0D of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of the addition of the following MDE items: fifty (50) Sidewinder AIM-9X Block II+ (Plus) tactical missiles; six hundred (600) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); up to twelve (12) AMRAAM Guidance Sections (spares); one thousand five hundred (1,500) GBU-39 Small Diameter Bomb Increment 1 (SDB I) munitions; two (2) GBU-39 (T-1)/B inert practice bombs; three hundred (300) FMU-139D/B fuzes; twenty (20) KMU-557 JDAM Guidance Kits for GBU-31; two hundred seventy-five

(275) KMU-572 JDAM Guidance Kits for GBU-38/54; twenty (20) BLU-109, general purpose bombs; and two hundred seventy-five (275) BLU-111, general purpose bombs. The following non-MDE items were also included: AMRAAM Control Sections; AMRAAM Captive Air Training Missiles (CATMs); GBU-39 Tactical Training Rounds; containers; weapon system support equipment; support and test equipment; site surveys; spare and repair parts; repair and return support; publications and technical data; maintenance and aircrew training; and other related elements of logistics support. The total cost of the new MDE articles was \$1.5 billion, and the total cost of the new non-MDE articles was \$80 million. The total notified cost of MDE increased to \$9.9 billion, and the total notified case value increased to \$14.08 billion.

This transmittal notifies the inclusion of the following additional MDE items: two hundred forty (240) Air Intercept Missiles 120D-3 (AIM-120D-3) Advanced Medium Range Air-to-Air Missiles (AMRAAM); eight (8) AIM-120D-3 AMRAAM guidance sections, including precise positioning provided by either Selective Availability Anti-Spoofing Modules or M-Code; and one (1) AIM-120D AMRAAM Instrumented Test Vehicle (ITV). The following non-MDE items will also be included: weapon system support including software; KGV-135A embedded communications security (COMSEC) device; transportation and airlift support; and other related elements of logistics and program support. The estimated total cost of the new items is \$625 million. The estimated total cost of the new MDE items is \$578 million and does not result in a net increase in total cost of MDE. The estimated total MDE cost remains \$9.9 billion. The estimated total cost of the new non-MDE items is \$47 million and does not result in a net increase in total cost of non-MDE. The total non-MDE remains \$4.18 billion. The total case value does not increase and remains \$14.08 billion.

(iv) *Significance*: This notification is being provided because the additional MDE items were not enumerated in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will provide Finland with a credible defense capability to deter aggression in the region and ensure interoperability with U.S. forces.

(v) *Justification*: This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important

force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The AIM-120D-series AMRAAM is a supersonic, air-launched, aerial intercept guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets. The AIM-120D features a quadrangle target detection device and an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection, and warhead detonation.

The ITV is a captive carry test vehicle used primarily for flight test integration. The ITV verifies and assesses the aircraft's ability to safely support an AMRAAM launch through the aircraft interface mechanism and the aircraft datalink antenna.

The KGV-135A is a high-speed general purpose encryptor and decryptor module used for wideband data encryption.

The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of information included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: April 28, 2025

May 2, 2025

The Honorable Mike Johnson  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 25-14, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Norway for defense articles and services estimated to cost \$370.9 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

  
Michael F. Miller  
Director

**BILLING CODE 6001-FR-C**

Transmittal No. 25-14

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Norway

(ii) *Total Estimated Value:*

Major Defense Equipment \* \$313.3 million

Other ..... \$ 57.6 million

TOTAL ..... \$370.9 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

*Major Defense Equipment (MDE):*

Three hundred (300) AIM-9X Block II

Sidewinder tactical missiles

Two (2) AIM 9X Block II special air

training missiles (NATM)

Twenty-four (24) AIM 9X Block II captive air training missiles (CATM)

Twenty (20) AIM 9X Block II tactical guidance units

Twenty (20) AIM 9X Block II CATM guidance units

*Non-Major Defense Equipment:*

The following non-MDE items will

also be included: dummy air training missiles; missile containers; software; training; support equipment; spare and repair parts; publications and technical documentation; transportation; United States (U.S.) Government and contractor engineering, technical, and logistical support services; and

other related elements of logistics and program support.

(iv) *Military Department:* Navy (NO-P-AIH)

(v) *Prior Related Cases, if any:* NO-P-AHV

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* May 2, 2025

\* as defined in Section 47(6) of the Arms Export Control Act.

**POLICY JUSTIFICATION***Norway—AIM-9X Block II Tactical Missiles*

The Government of Norway has requested to buy three hundred (300) AIM-9X Block II Sidewinder tactical missiles; two (2) AIM 9X Block II special air training missiles (NATM); twenty-four (24) AIM 9X Block II captive air training missiles (CATM); twenty (20) AIM 9X Block II Tactical Guidance Units; and twenty (20) AIM 9X Block II CATM Guidance Units. The following non-MDE items will also be included: dummy air training missiles; missile containers; software; training; support equipment; spare and repair parts; publications and technical documentation; transportation; U.S. Government and contractor engineering, technical, and logistical support services; and other related elements of logistics and program support. The estimated total program cost is \$370.9 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats by ensuring aviation forces' interoperability with the U.S. and other NATO members. Norway will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of the proposed sale will require the assignment of three U.S.

Government and three contractor representatives to Norway on a temporary basis in conjunction with program technical oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-14

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

*(vii) Sensitivity of Technology:*

1. The AIM-9X Block II Sidewinder missile represents a substantial increase in missile acquisition and kinematics performance over the AIM-9M and replaces the AIM-9X Block I missile configuration. The missile includes a high off-boresight seeker, an enhanced countermeasure rejection capability, a low drag/high angle of attack airframe, and the ability to integrate the Helmet Mounted Cueing System. The most current AIM-9X Block II operational flight software developed for all international partners, which is authorized by U. S. Government export policy, provides fifth-generation infrared missile capabilities such as lock-on-after-launch, Weapons Data Link, surface attack, and surface launch. No software source code or algorithms will be released.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Norway can provide substantially

the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Norway.
