**SUPPLEMENTARY INFORMATION:****I. Abstract**

This is a request for a new generic clearance to collect performance and progress data from recipients and sub-recipients who receive funding from DOC under a discretionary grant or cooperative agreement. This information is required to monitor and report program performance.

DOC provides grants that promote the economic and social well-being of individuals and communities with partnerships, funding, guidance, training, and technical assistance. Currently, most program offices are using the standard grant forms (SF) for

progress reporting, which require grantees to only respond to a common set of questions that often solicits incomplete information. This one-size-fits-all approach does not adequately collect the specific data needed for particular grant programs or allow program offices to assess continuous quality improvement. Different grant programs vary in purpose, target population, and activities. Thus, a need for program offices to customize performance measurements has been identified.

Therefore, this generic Program Specific Performance Progress Report collection is being proposed.

**II. Method of Collection**

Some program offices may use some form of electronic collection. This could include web pages, email or other online data management systems. Recipients may be required to enter and retrieve information pertinent to their awards through electronic forms closely resembling the paper forms (*i.e.*, fillable PDFs or tailored online data management systems). Such technology support is expected to improve standardization and timeliness of recipient reporting and to ease further analyses of reported data.
