SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for extension of a currently approved collection. Under the Fishery Management Plan (FMP) for United States (U.S.) West Coast Fisheries for Highly Migratory Species (HMS), U.S. fishermen participating in the Pacific Hook and Line fishery (also known as the albacore troll and pole-and-line fishery) are required to obtain an HMS permit. Permit holders are required to complete and submit logbooks documenting their daily fishing activities, including catch and effort for each fishing trip. Logbook forms must be completed within 24 hours of the completion of each fishing day and submitted to the Southwest Fisheries Science Center (SWFSC) within 30 days of the end of each trip. These data and associated analyses help the SWFSC provide fisheries information to researchers and the needed management advice to the U.S. in its negotiations with foreign fishing nations exploiting HMS.
