

of this political and economic power contributes significantly to ensuring peace and economic stability in the Western Pacific. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale will improve Australia's capability to meet current and future threats by protecting and increasing aircraft survivability. Australia will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Kilgore Flares Company, LLC, located in Toone, TN; Armtec Countermeasures Company, located in Coachella, CA; Alloy Surface Company, Inc. located in Aston, PA; Chemring Australia PTY LTD, located in Lara, Australia; and CCI Capco LLC, located in Grand Junction, CO. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require three U.S. Government personnel and one contractor representatives to visit Australia on a temporary basis in conjunction with program technical oversight and support requirements, including program and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–127

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. Chaff and flare countermeasure systems are critical defensive technologies designed to protect tactical aircraft from enemy threats. Chaff consists of dispersed metallic or conductive strips that generate false radar reflections, confusing enemy radar systems and reducing the probability of a successful radar-guided missile engagement. Flare systems deploy intense infrared-emitting devices to counteract and mislead missiles and tracking systems, diverting them away from the aircraft. These countermeasures collectively enhance the aircraft's defensive capabilities by impairing enemy targeting systems. For training purposes, pilots use simulated chaff and flare systems to practice the deployment and effectiveness of these defensive measures in combat scenarios.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed

sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Australia.

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 24-128, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Japan for defense articles and services estimated to cost \$200 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

Michael F. Miller
Director

Transmittal No. 24-128

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Japan

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$ 0
Other	\$200 million
TOTAL	\$200 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):
None

Non-Major Defense Equipment:

The following non-MDE items will be included in support of Japan's indigenous Hyper Velocity Gliding Projectiles (HVGP) capability: test preparation, test, and transportation support, including range support; test utility support (water, gas, electricity); range surveillance;

range safety including Flight Termination System reviews; radio frequency assignments; test plan generation, test data, and environmental and site approvals; office facilities; administrative services; transport of test equipment; procurement of measuring equipment; coordination meetings in the United States (U.S.) and Japan; and other related elements of logistics and program support.

(iv) *Military Department:* Navy (JA-P-QRB)

(v) *Prior Related Cases, if any:* JA-P-QOG

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* March 10, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Japan—Hyper Velocity Gliding Projectiles Capability Support

The Government of Japan has requested to buy equipment and services in support of its indigenous Hyper Velocity Gliding Projectiles (HVGP) capability, including test preparation, test, and transportation support, including range support; test utility support (water, gas, electricity); range surveillance; range safety including Flight Termination System reviews; radio frequency assignments; test plan generation, test data, and environmental and site approvals; office facilities; administrative services; transport of test equipment; procurement of measuring equipment; coordination meetings in the U.S. and Japan; and other related elements of logistics and program support. The estimated total cost is \$200 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve Japan's capability to meet current and future threats by providing defense for remote islands. Japan will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Equipment and services will be provided by the U.S. Government. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–128

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The upgraded Hyper Velocity Gliding Projectile (HVGP) is an indigenous weapon and standoff missile. The weapon uses a solid-propellant rocket booster, with the projectile separating at a high altitude and then gliding at hypersonic speeds until impact. The upgraded version will increase performance of the original HVGP.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar advanced capabilities.

4. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. The sale is necessary to advance the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Japan.
