**Abstract of Information Available**

Human remains representing five individuals have been identified. No associated funerary objects are present. The five skulls were recovered by the LAC DME after a community member reported the findings to L.A. Police Department. The community member claimed that the five skulls were purchased by his father (who passed away in 2024) at an antique shop in Memphis, Tennessee in the 1980s. The skulls were reportedly found near a local construction site, according to the antique shop worker. The community member's father transported the five skulls back to his home in Woodland Hills, CA where they remained until his death.

Based on the information available and the results of consultation with the Cherokee Nation, The Chickasaw

Nation, and The Choctaw Nation of Oklahoma, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.
