Total Annual Burden: 36 hours.

Total Annual Cost: No Cost.

Needs and Uses: On September 30, 2019, the Commission released the *Uniendo a Puerto Rico Fund and Connect USVI Fund Order*, WC Docket No. 18–143 et al., FCC 19–95, which comprehensively reformed the universal service high-cost program to focus support on networks capable of providing advanced, hardened voice and broadband services in Puerto Rico and the U.S. Virgin Islands (collectively, the Territories). As part of the *PR–USVI Order*, the Commission adopted a single-round competitive proposal process to award Stage 2 support for fixed telecommunications networks in the Territories (Stage 2 Competition).

For the Stage 2 Competition, service providers competed to receive high-cost support of up to \$504.7 million in Puerto Rico and \$186.5 million in the U.S. Virgin Islands over 10 years to offer fixed voice and broadband services to all locations in the Territories in accordance with the framework adopted in the *PR–USVI Order*. The information collection requirements reported under this collection are the result of the competitive proposal process adopted by the *PR–USVI Order* to award support to winning applicants. The Commission adopted various rules regarding the eligibility of service providers and the term of support. In addition, the Commission adopted rules to govern the competitive proposal process, which includes information to be submitted by parties as part of their competitive proposals and information that must be submitted by winning bidders seeking to become authorized to receive Stage 2 fixed support. The Commission concluded, based on its experience with awarding high-cost support and consistent with the record, that this single-stage competitive proposal

process balances the need to collect information essential to awarding support and authorizing Stage 2 fixed support with administrative efficiency.

On September 30, 2025, the Commission adopted an order that conducted a comprehensive review of legacy requirements and determined that certain high-cost program rules no longer serve any operational purpose. *Delete, Delete Delete; Removal of Obsolete Regulations*; GN Docket No. 25–133, FCC 25–68 (rel. September 30, 2025) (*Delete, Delete, Delete*). This requested change results from the Commission's decision in that proceeding. The Commission determined that 47 CFR 54.1505 is outdated and obsolete, and unnecessary because all associated proposals using FCC Form 5634 have concluded.

Therefore, the Commission removes the application requirement and retains only the limited ongoing requirements related to the annual maintenance of letters of credit under 47 CFR 54.804(c), 54.1508 and the disaster preparation and response plan under § 54.1515. This information collection addresses the burdens associated with these requirements.

Federal Communications Commission.
