

(university), and Federal. Data is entered at the regional level and is available in aggregated form at the Institution level in real time. University staff are able to generate institutional-level reports to guide program management decisions and to inform State-level stakeholders. National data is used to create National reports, which are made available to the public.

NIFA is proposing revisions to the previously approved collection. A new Youth Food and Physical Activity Questionnaire for grades 6–12 has been added to better capture outcomes for older youth participants, with corresponding reports and federal data integration. The youth direct data app has been enabled, allowing youth participants to enter their own data, complementing the existing adult direct data app. The food database has been updated to the FNDDS 2017–2018 version for improved accuracy in dietary recall analysis. The system has been updated to support the new five-year plan cycle beginning FY2024, including visibility of previous year comments and streamlined approval workflows.

Total Estimate of Burden: The total annual estimated burden for this information collection is 18,772 hours. This includes the time needed for participant education and data entry, aggregation, and reporting; and for preparation, review, and submission of EFNEP program plans and budgetary information.

Estimated Number of Respondents: 76.
