Also included were Forward Repair Systems; Next Generation (NG) Shop Equipment Maintenance Contact (SECM) shelters; communications equipment; GPS receivers; ammunition; Spare and Repair Parts; Special Tools and Test Equipment (STTE); technical manuals and publications; new equipment training; United States (U.S.) Government and contractor technical engineering, logistics, and personnel services; and other related elements of logistics and program support. The estimated total program cost was \$3.75 billion. Major Defense Equipment (MDE) constituted \$3.25 billion of this total.

On September 25, 2024, Congress was notified by congressional certification transmittal number 24–0T of the inclusion of twenty-five (25) M1150 Assault Breacher Vehicles (ABVs); thirty-seven (37) M2 .50 caliber machine guns; sixty thousand (60,000) 120 mm M908 High Explosive Obstacle Reduction—Tracer (HE—OR—T) cartridges; thirty (30) 120 mm M865 Target Practice, Cone Stabilized, Discarding Sabot—Tracer (TPCSDS—T) cartridges; two hundred twenty-five

(225) M58 linear charge demolition, high explosive Mine Clearing Line Charges (MCLICs); and twenty-five (25) M68A2 Charge, Demolition, Inert, Flexible Linear. The following non-MDE items were also included: MK22 MOD 4 5-inch rocket motors; AN/PRC–158 radios; communications equipment; Global Positioning System (GPS) receivers and precise positioning provided by Selective Availability Anti-Spoofing Module or M-Code; forward repair systems; spare and repair parts; Special Tools and Test Equipment (STTE); technical manuals and publications; New Equipment Training (NET); site surveys; transportation; U.S. Government and contractor technical, engineering, logistics, and personnel services; and other related elements of logistics and program support. The total value of the new items was \$850 million, but did not require an increase to the previously notified MDE and non-MDE values. The estimated total cost remained \$3.75 billion. MDE remained \$3.25 billion of this total.

This transmittal notifies the inclusion of the following additional MDE items: sixteen (16) M88A2 Heavy Equipment Recovery Combat Utility Lift and Evacuation System (HERCULES) recovery vehicles and fifty (50) AGT1500 M1A1 tank engines. The following non-MDE items will also be included: M88A2 and tank engine follow-on support; 120 mm ammunition rounds; and other related elements of logistics and program support. The estimated total cost of the new items is \$5.83 billion. The estimated MDE value will increase by \$4.86 billion. The estimated total case value will increase by \$5.83 billion to a revised \$9.58 billion. MDE will constitute \$8.11 billion of that total.

(iv) *Significance*: This notification is being provided as the additional MDE and non-MDE items were not enumerated in the original notification. The inclusion of these items represents an increase in capability over what was previously notified. The proposed sale will support Poland's capability to meet current and future threats by enabling a credible force that is capable of deterring adversaries and participating in NATO operations.

(v) *Justification*: This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: July 29, 2025

POLICY JUSTIFICATION

Ukraine—Transportation and Consolidation Services

The Government of Ukraine has requested to buy transportation and consolidation services in support of security assistance programs and other related elements of logistics and program support. The estimated total cost is \$99.5 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States (U.S.) by improving the ability of Ukraine to provide for its own defense.

The proposed sale will improve Ukraine's capability to meet current and

future threats by further equipping it to conduct self-defense and regional security missions through transportation and consolidation services. Ukraine will have no difficulty absorbing these services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor(s) will be determined from approved vendors. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
