

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be RTX Corporation, located in Arlington, VA; and Lockheed Martin, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Javelin is a medium-range, man-portable, shoulder-launched, fire-and-forget anti-tank system for infantry, scouts, and combat engineers. It can be mounted on a variety of platforms including vehicles, aircraft, and watercraft. The system weighs 49.5 pounds and has a maximum range in excess of 2,500 meters. The system is highly lethal against tanks and other systems with conventional and reactive armors. The system possesses a secondary capability against bunkers.

2. Javelin's key technical feature is the use of fire-and-forget technology, which allows the gunner to fire and immediately relocate or take cover. Additional features are the top attack and direct fire modes, an advanced tandem warhead and imaging infrared seeker, target lock-on before launch, and soft launch from enclosures or covered

fighting positions. The Javelin missile also has a minimum smoke motor thus decreasing the likelihood of detection on the battlefield.

3. The Javelin weapon system is comprised of two major tactical components, which are a reusable Lightweight Command Launch Unit (LwCLU) and a round contained in a disposable launch tube assembly. The LwCLU incorporates an integrated day-night sight that provides a target engagement capability in adverse weather and countermeasure environments. The LwCLU can also be used in a stand-alone mode for battlefield surveillance and target detection. The LwCLU's thermal sight is a second generation forward looking infrared sensor. To facilitate initial loading and subsequent updating of software, all on-board missile software is uploaded via the LwCLU after mating and prior to launch.

4. The missile is autonomously guided to the target using an imaging infrared seeker and adaptive correlation tracking algorithms. This allows the gunner to take cover or reload and engage another target after firing a missile. The missile has an advanced tandem warhead and can be used in either the top attack or direct fire modes. An onboard flight computer guides the missile to the selected target.

5. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

6. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that the Government of Poland can provide substantially the same degree of

protection for the sensitive technology being released as the U.S. government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed on this transmittal have been authorized for release and export to the Government of Poland.

BILLING CODE 6001-FR-C

Transmittal No. 25-58

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Ukraine

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$ 0
Other	\$150 million
TOTAL	\$150 million

Funding Source: JUMPSTART

Funding from Germany

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* The Government of Ukraine has requested to buy an extension of satellite communications services for its Starlink terminals.

Major Defense Equipment (MDE):

None

Non-Major Defense Equipment:

The following non-MDE items will be included: United States (U.S.) Government and contractor

engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Air Force (JU-D-DAA)

(v) *Prior Related Cases, if any:* NX-D-DAA; NW-D-DAA

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* None

(viii) *Date Report Delivered to Congress:* August 29, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Ukraine—Satellite Communications Services

The Government of Ukraine has requested to buy an extension of satellite communications services for its Starlink terminals. The following non-MDE items will be included: U.S.

Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$150 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a partner country that is a force for political stability and economic progress in Europe.

The proposed sale will improve Ukraine's ability to meet current and future threats by further equipping it to conduct self-defense and regional security missions with a more robust defense capability. Ukraine will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor for this effort will be Starlink Services, located in Hawthorne, CA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement

will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
