2800 Defense Pentagon
Washington, DC 20301-2800

SEP 17 2025

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 25-0K. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 23-63 of November 2, 2023.

Sincerely,

Michael F. Miller
Director

Enclosures:

1. Transmittal
2. Regional Balance (Classified document provided under separate cover)

BILLING CODE 6001-FR-C

Transmittal No. 25-0K

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)**

(i) *Prospective Purchaser:* Government of Iraq

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 23-63

Date: November 2, 2023

Military Department: Army

Funding Source: National Funds

(iii) *Description:* On November 2, 2023, Congress was notified by congressional certification transmittal number 23-63 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of additional services, as indicated below, that were added to a previously implemented case whose value was under the congressional notification threshold. The original FMS case, valued at \$28 million, included a Bell Contractor Logistics Support (CLS) and Field Service Representative (FSR) contract. This notification was for the combined

CLS and FSR maintenance support for the following Bell aircraft: three (3) 407 variants, 206B3, OH-58A/C Kiowa, Huey II, and 505. The following was also included: United States (U.S.) Government and contractor engineering, technical and logistics support services; studies and surveys; and other related elements of logistics and program support. The estimated total cost was \$300 million. There was no Major Defense Equipment (MDE) associated with this sale.

This transmittal notifies the addition of the following non-MDE items: Contractor Logistics Support (CLS) and Field Service Representative (FSR) support for all variations of the Bell 412 aircraft. The estimated total value of the new items is \$200 million, resulting in a non-MDE and total case value increase of \$200 million to \$500 million. No MDE will be associated with this sale.

(iv) *Significance:* The proposed services will support the Iraq Army Aviation Command's rotary wing program to meet current and future threats by enhancing the strength of its homeland defense.

(v) *Justification:* This proposed sale will support the foreign policy and national security of the U.S. by helping to improve the security of a strategic partner.

(vi) *Sensitivity of Technology:*

The Sensitivity of Technology statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

(vii) *Date Report Delivered to Congress:* September 17, 2025

BILLING CODE 6001-FR-C

Transmittal No. 25-46

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Ukraine

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$ 739 million
Other	\$ 86 million

TOTAL \$825 million

Funding Source: Jumpstart Funding from Denmark, the Netherlands, and Norway; Foreign Military Financing

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

- Up to three thousand three hundred fifty (3,350) Extended Range Attack Munition (ERAM) missiles
- Up to three thousand three hundred fifty (3,350) Embedded Global Positioning System (GPS)/Inertial Navigation Systems (INS) (EGI) with Selective Availability Anti-Spoofing Module (SAASM), Y-Code, or M-Code

Non-Major Defense Equipment:

The following non-MDE items will be

included: missile containers; stoker pylons; component parts and support equipment; spare parts, consumables and accessories, and repair and return support; weapons software and support equipment; mission planning system hardware; classified software delivery and support; classified and unclassified publications and technical documentation; personnel training and training equipment; transportation support; studies and surveys; United States (U.S.) Government and contractor engineering, technical, and logistics

support services; and other related elements of logistics and program support.

(iv) *Military Department*: Air Force (JU–D–YAA, UP–D–YAB)

(v) *Prior Related Cases, if any*: KA–D–YAF

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: See Attached Annex

(viii) *Date Report Delivered to Congress*: August 28, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Ukraine—Air Delivered Munitions

The Government of Ukraine has requested to buy up to three thousand three hundred fifty (3,350) Extended Range Attack Munition (ERAM) missiles and three thousand three hundred fifty (3,350) Embedded Global Positioning System (GPS)/Inertial Navigation Systems (INS) (EGI) with Selective Availability Anti-Spoofing Module (SAASM), Y-Code, or M-Code. The following non-MDE items will be included: missile containers; stoker pylons; component parts and support equipment; spare parts, consumables and accessories, and repair and return support; weapons software and support equipment; mission planning system hardware; classified software delivery and support; classified and unclassified publications and technical documentation; personnel training and training equipment; transportation support; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$825 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a partner country that is a force for political stability and economic progress in Europe.

This proposed sale will improve Ukraine's capability to meet current and future threats by further equipping it to

conduct self-defense and regional security missions. Ukraine will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Zone 5 Technologies and CoAspire. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–46

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The Extended Range Attack Munition (ERAM) is a 500-pound class air-launched, subsonic, precision-guided, turbojet powered, conventional, air-to-ground munition used to defeat targets in adverse weather from a standoff range of approximately 250 nautical miles. It uses Global Positioning System/Inertial Navigation System (GPS/INS) guidance with a unitary warhead for maximum lethality against armored and soft stationary targets.

2. The Embedded GPS/INS (EGI) with Selective Availability Anti-Spoofing Module (SAASM), Y-Code, or M-Code receiver when available, and Precise Positioning Service is a self-contained navigation system. SAASM, Y-Code, or M-Code enables the GPS receiver access to an encrypted P signal, providing protection against active spoofing attacks.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Ukraine can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Ukraine.
