(viii) *Date Report Delivered to Congress*: September 17, 2025

\* as defined in Section 47(6) of the Arms Export Control Act.

**POLICY JUSTIFICATION****Norway—MK 54 MOD 0 Lightweight Torpedoes**

The Government of Norway has requested to buy up to fifty (50) MK 54 MOD 0 lightweight torpedo all up rounds. The following non-MDE items will also be included: torpedo components; containers; software; training; support equipment; spare and repair parts; publications and technical documentation; transportation; U.S. Government and contractor engineering, technical, and logistical support

services; and other related elements of logistics and program support. The estimated total cost is \$162.1 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats and increase its interoperability with the U.S. and other NATO members. Norway currently has MK 54 MOD 0 lightweight torpedoes in its inventory and will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of the proposed sale will require the assignment of U.S. Government and contractor representatives to Norway on a temporary basis in conjunction with program technical oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-89

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The MK 54 MOD 0 lightweight torpedo is a conventional torpedo that can be launched from surface ships and aircraft. The MK 54 is an upgrade of the MK 46 torpedo. The upgrade to the MK 54 involves replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a combination of commercial off-the-shelf and custom-built electronics. The warhead, fuel tank, and propulsion system from the MK 46 torpedo are reused in the MK 54 configuration with minor modifications.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary to further the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Norway.

**POLICY JUSTIFICATION**

*Poland—F-35 Sustainment*

The Government of Poland has requested to buy equipment and services in support of F-35 sustainment, including the aircraft engine Component Improvement Program (CIP). The following non-MDE items will be included: major and minor modifications; spare parts, consumables and accessories, and repair and return support; weapon system support, including software; classified software and delivery support; classified and unclassified publications and technical documentation; clothing, textiles, and individual equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$1.85 billion.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political and economic stability in Europe.

The proposed sale will improve Poland's capability to meet current and future threats by increasing the reliability of its F-35 fleet. Poland will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company, located in Fort Worth, TX. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any

additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
