Transmittal No. 25-1C

**REPORT OF ENHANCEMENT OR  
UPGRADE OF SENSITIVITY OF  
TECHNOLOGY OR CAPABILITY (SEC.  
36(B)(5)(C), AECA)**

(i) *Prospective Purchaser:* Government of Poland

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 23-67

Date: September 13, 2023

Implementing Agency: Air Force

Funding Source: National Funds

(iii) *Description:* On September 13, 2023, Congress was notified by congressional certification transmittal number 23-67 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of Electronic Warfare database reprogramming support; classified and unclassified software delivery and support; classified and unclassified publications and technical documentation; spare parts, consumables, accessories, and repair and return support; computer program identification numbers; engine Component Improvement Program support; minor modifications; maintenance and maintenance support; studies and surveys; United States (U.S.)

Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost was \$389 million. There was no Major Defense Equipment (MDE) associated with this sale.

This transmittal notifies the inclusion of the following additional non-MDE items: aircraft components, parts, and accessories; and other related elements of logistics and program support. The estimated total cost of the new items is \$611 million. The estimated total case value will increase by \$611 million to a revised \$1 billion. There is no MDE associated with this sale.

(iv) *Significance:* This notification is being provided as the additional non-MDE items were not enumerated in the original notification. The inclusion of these items represents an increase in capability over what was previously notified. The proposed sale will support Poland's capability to meet current and future threats by increasing the reliability of their F-16 fleet, while expanding its national defense capabilities and supporting the common defense of NATO.

(v) *Justification:* This proposed sale will support the foreign policy and

national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:* The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress:* September 18, 2025

**POLICY JUSTIFICATION**

*Norway—GBU-39B Small Diameter Bomb Increment I*

The Government of Norway has requested to buy eight hundred sixteen (816) GBU-39/B Small Diameter Bombs Increment I. The following non-MDE items will also be included: spare parts, consumables and accessories, and repair and return support; training aids, devices, and spare parts; classified and unclassified software delivery and support; classified and unclassified publications and technical data; U.S. Government and contractor engineering,

logistics, and technical support services; and other related elements of logistics and program support. The estimated total cost is \$113 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats and increase its interoperability with the U.S. and other NATO members. Norway will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company, located in Arlington, VA. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–68

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The GBU–39/B Small Diameter Bomb Increment I (SDB–I) all up round is a 250-lb GPS-aided inertial navigation system with precise positioning services provided by Selective Availability Anti-Spoofing Module or M-Code, small autonomous, day or night, adverse weather, conventional, air-to-ground precision glide weapon able to strike fixed and stationary relocatable non-hardened targets from standoff ranges. It provides aircraft with an ability to four SDBs in place of one 2,000-lb bomb.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Norway.
