

Environmental Mailing List

The environmental mailing list includes: federal, state, and local government representatives and agencies; elected officials; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project and includes a mailing address with their comments. Commission staff will update the environmental mailing list as the analysis proceeds to ensure that Commission notices related to this environmental review are sent to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If you need to make changes to your name/address, or if you would like to remove your name from the mailing list, please complete one of the following steps:

(1) Send an email to GasProjectAddressChange@ferc.gov stating your request. You must include the docket number CP26-45 in your request. If you are requesting a change to your address, please be sure to include your name and the correct address. If you are requesting to delete your address from the mailing list, please include your name and address as it appeared on this notice. This email address is unable to accept comments.

OR

(2) Return the attached "Mailing List Update Form" (appendix B).

[Project No. 3015-019]

Southeast Alaska Power Agency; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Southeast Alaska Power Agency's application for a capacity amendment of the license for the Tye Lake Hydroelectric Project No. 3015 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to install a third turbine-generator unit, which would increase the total installed capacity of the project to 33.75-MW. The project is located on Tye Creek in Wrangell Borough, Alaska. The project occupies federal lands administered by the U.S. Forest Service within the Tongass National Forest.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed amendment, alternatives to the proposed action, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-3015) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

j. *Deadline for filing comments, protests, and motions to intervene is:* February 20, 2026, by 5:00 p.m. Eastern Time.

The Commission strongly encourages electronic filing. Please file comments, protests, and motions to intervene using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket numbers DI26–1–000 and P–13871–000. Comments emailed to Commission staff are not considered part of the Commission record.

k. *Description of Project:* The existing Humphreys Hydroelectric Project (P–13871) consists of: (1) 186-foot-long, 90-foot-high concrete arch dam with twin 36-inch outlets; (2) 148-foot long, 70-foot-wide concrete ogee overflow spillway; (3) 44-acre reservoir with normal storage of 842 acre feet and a normal surface elevation of 8,971.15 feet mean sea level; (4) siphon intake and trash rack constructed on the left abutment of the dam at an elevation 8,971.15 feet mean sea level; (5) 36-inch-diameter, 600-foot-long above

ground steel penstock leading from the siphon intake to the powerhouse; (6) 16-foot-wide by 24-foot-long powerhouse housing the turbine, generator, switchgear and controls; (7) 310-kilowatt nameplate capacity turbine generator; (8) 500-foot-long, 25-kilovolt buried cable connecting the powerhouse to the existing underground power line located adjacent to the main ranch access road; and (9) appurtenant facilities.

This petition seeks a declaration finding that the Humphreys Hydroelectric Project is non-jurisdictional because the project is not located on a navigable stream or a tributary to a navigable waterway over which Congress has jurisdiction under the Commerce Clause; does not involve post-1935 construction; and does not directly affect interstate or foreign commerce.

When a Petition for Declaratory Order is filed with the Commission, requesting a jurisdictional determination for an existing project, a review is begun to determine if the interests of interstate or foreign commerce are affected by the project. The Commission also determines whether or not the project: (1) is located on a navigable waterway; (2) is occupying or affecting public lands or reservations of the United States; (3) is utilizing surplus water or water power from a government dam; or (4) if applicable, has undertaken any construction subsequent to 1935 that may have increased the project's head or generating capacity, or has otherwise significantly modified the project's pre-1935 design or operation.

l. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502–8659.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will
