

Transmittal No. 25–05

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser*: Government of Iraq

(ii) *Total Estimated Value*:

Major Defense Equipment *	\$ 0
Other .....	\$100 million
TOTAL .....	\$100 million

Funding Source: National Funds

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase*: Foreign Military Sales (FMS) case IQ–B–URS was below congressional notification threshold at \$41 million (\$0 in MDE) and included Radio Access Points (RAP), handheld dismounted radios; radio base station systems; radio repeater systems; very high frequency vehicular radio systems; WiMax systems; intermediate power amplifier base station systems; intermediate power amplifier vehicular systems; Very Small Aperture Terminals; installation materials and kits; routers; switches; shelters; solar equipment; cameras and spare parts; personnel training and training equipment; studies and surveys; Contractor Logistics Support; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The Government of Iraq has requested that the case be amended to include additional repeater systems and installation kits; high-capacity line of sight systems; RAP infrastructure (shelter, solar, camera, and air conditioner); and IT components (router, switch, and rack) to support a Country Wide Repeater System. This amendment will cause the case to exceed the notification threshold and thus notification of the entire program is required. The above notification requirements are combined as follows: *Major Defense Equipment (MDE)*:

None

*Non-Major Defense Equipment*:

The following non-MDE items will be included: Radio Access Points (RAP), handheld dismounted radios; radio base station systems; radio repeater systems; very high frequency vehicular radio systems; WiMax systems; intermediate power amplifier base station systems; intermediate power amplifier vehicular systems; Very Small Aperture Terminals; installation materials and kits; routers; switches; shelters; solar equipment; cameras and spare parts; personnel training and

training equipment; studies and surveys; Contractor Logistics Support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support; repeater systems and installation kits; high-capacity line of sight systems; RAP infrastructure (shelter, solar, camera, and air conditioner); and IT components (router, switch, and rack) to support a Country Wide Repeater System; and other related elements of logistics and program support.

(iv) *Military Department*: Army (IQ–B–URS)

(v) *Prior Related Cases, if any*: None  
(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: None

(viii) *Date Report Delivered to Congress*: November 13, 2025

\* as defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

##### *Iraq—Country Wide Repeater System*

The Government of Iraq has requested to buy Radio Access Points (RAP), handheld dismounted radios; radio base station systems; radio repeater systems; very high frequency vehicular radio systems; WiMax systems; intermediate power amplifier base station systems; intermediate power amplifier vehicular systems; Very Small Aperture Terminals; installation materials and kits; routers; switches; shelters; solar equipment; cameras and spare parts; personnel training and training equipment; studies and surveys; Contractor Logistics Support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support; repeater systems and installation kits; high-capacity line of sight systems; RAP infrastructure (shelter, solar, camera, and air conditioner); and IT components (router, switch, and rack) to support a Country Wide Repeater System; and other related elements of logistics and program support. The estimated total cost is \$100 million.

This proposed sale will support the foreign policy and national security of the U.S. by helping to improve the security of a strategic partner.

The proposed sale will improve Iraq's critical command-and-control capabilities, bolstering its defense

against regional threats. This strengthens Iraq's ability to protect its borders, energy infrastructure, and residents, while advancing U.S. security interests. Iraq will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be L3Harris Corporation, located in Rochester, NY. At this time, the U.S. government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the assignment of two U.S. government and five U.S. contractor representatives to Iraq for a duration of five years to support quarterly program management reviews, provide engineering consulting and technical assessments for equipment upgrades and growth of the CWRS, and to conduct in-country training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The Honorable James E. Risch  
Chairman  
Committee on Foreign Relations  
United States Senate  
Washington, DC 20510

Dear Mr. Chairman:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 25-1R. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 17-12 of June 23, 2017.

Sincerely,

Michael F. Miller  
Director

**BILLING CODE6001-FR-C**

Transmittal No. 25-1R

REPORT OF ENHANCEMENT OR  
UPGRADE OF SENSITIVITY OF  
TECHNOLOGY OR CAPABILITY (SEC.  
36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Government of Australia

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 17-12

Date: June 23, 2017

Implementing Agency: Air Force

(iii) *Description:* On June 23, 2017, Congress was notified by congressional certification transmittal number 17-12 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to five (5) Gulfstream G-550 aircraft modified to integrate Airborne Intelligence, Surveillance, Reconnaissance, and Electronic Warfare (AISREW) mission systems, Global Positioning System (GPS) capability, secure communications, aircraft defensive systems; spares, including whole life costs of airborne and ground

segments; aircraft modification and integration; ground systems for data processing and crew training; ground support equipment; publications and technical data; United States (U.S.) Government and contractor engineering, technical and logistics support services; flight test and certification; and other related elements of logistical and program support. The estimated total cost was \$1.3 billion. Major Defense Equipment (MDE) constituted \$.04 billion of this total.

On August 26, 2020, Congress was notified by Congressional certification transmittal number 20-0J of Australia's request for the inclusion of the following non-MDE items and services: spares and repair/return parts; consumables and support equipment; publications and technical documentation; maintenance, training and training equipment; U.S. Government and contractor flight test and certification, aircraft modification and integration, engineering, technical and logistics support services; and other

related elements of logistical and program support. These additional items resulted in an increase in non-MDE cost of \$500 million, causing a revised total cost for non-MDE of \$1.76 billion. Major Defense Equipment (MDE) remained \$.04 billion. The total estimated case value increased by \$500 million to \$1.8 billion.

This transmittal notifies the addition of the following non-MDE items: follow-on sustainment support of the Royal Australian Air Force's Gulfstream G-550 aircraft modified with airborne intelligence, surveillance, reconnaissance, and electronic warfare (AISREW) mission systems; and other related elements of logistics and program support. The estimated total cost of the new items is \$230 million. The estimated total case will increase by \$230 million to a revised \$2.03 billion. There is no MDE associated with this sale.

(iv) *Significance:* The proposed sale will support Australia's efforts to modernize its electronic warfare support

capability and increase interoperability between the U.S. Air Force and the Royal Australian Air Force.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the U.S. Australia is one of the most important U.S. allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

(vi) *Date Report Delivered to Congress:* November 7, 2025
