

IMPS and SMPS HOB Capability; and eighteen (18) M57 Army Tactical Missile System (ATACMS) Missile Pods. Also included were M28A2 Low Cost Reduced Range Practice Rocket (LCRRPR) pods; ruggedized laptops; training equipment; publications for HIMARS and munitions/missiles; and other related elements of program and logistics support. The total estimated cost was \$500 million. Major Defense Equipment (MDE) constituted \$455 million of this total.

This transmittal notifies the inclusion of the following additional MDE items: six (6) M142 High Mobility Artillery Rocket Systems (HIMARS); two hundred fifty (250) M31A2 Guided Multiple Launch Rocket System (GMLRS) Unitary Alternative Warhead (AW), unitary High Explosive missile pods with Insensitive Munition Propulsion System (IMPS) capability; two hundred fifty (250) M30A2 GMLRS AW missile pods with IMPS; two hundred fifty (250) XM403 Extended Range (ER) GMLRS AW missile pods with IMPS and Side Mounted Proximity Sensor (SMPS) Height-of-Burst (HOB) capability; two hundred fifty (250) XM404 ER GMLRS Unitary pods with IMPS and SMPS HOB capability; and two hundred (200) M57 Army Tactical Missile Systems (ATACMS). The following non-MDE items are also included: M282 Low Cost Reduced Range Practice Rocket (LCRRPR) pods; communications equipment; publications for HIMARS and munitions/missiles; and other related

elements of program and logistics support. The estimated total value of the new items is \$4.23 billion. The estimated non-MDE value will increase by \$125 million to a revised \$170 million. The estimated total case value will increase by \$4.23 billion to a revised \$4.73 billion. MDE constitutes \$4.56 billion of this total.

(iv) *Significance*: This notification is being provided as the additional MDE items were not enumerated in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will improve Estonia's capability to meet current and future threats and enhance its interoperability with United States (U.S.) and other allied forces. It will also allow for continued modernization of Estonia's armed forces while expanding capability to strengthen homeland defense and deter regional threats.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that continues to be an important force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: September 26, 2025

**POLICY JUSTIFICATION**

*Republic of Korea—AGM-65G2 Maverick Tactical Missiles*

The Republic of Korea has requested to buy forty-four (44) AGM-65G2 Maverick tactical missiles. The following non-Major Defense Equipment items will be included: U.S. Government and contractor engineering; technical, and logistics support services; and other related elements of logistics

and program support. The estimated total cost is \$34 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a major ally that is an important force for political stability and economic progress in the Indo-Pacific region.

This proposed sale will improve the Republic of Korea's capability to meet current and future threats by increasing its critical air defense capability to deter aggression in the region and to ensure interoperability with U.S. forces. The Republic of Korea already has Maverick missiles in its inventory and will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. The purchaser typically requests offsets. At this time, the U.S. Government is not aware of any offset agreement proposed

in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–71

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM–65G2 Maverick tactical missile is an air-to-ground missile with a lock on before launch, day or night capability. The AGM–65G2 has an imaging infrared (IIR) guidance system that allows for locking onto larger targets, such as ships. The IIR can track heat generated by a target and provides the pilot with a pictorial display of the target during darkness and hazy or inclement weather. The warhead on the

AGM–65G2 is a heavyweight penetrator warhead.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Republic of Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.
