SUPPLEMENTARY INFORMATION: PHMSA received a special permit request from Harvest on July 29, 2025, seeking to deviate from the Federal pipeline safety regulations in 49 CFR 193.2905 and 193.2907 for the Facility located in Alaska’s North Slope Borough.

Due to Arctic-specific environmental and operational challenges associated with installing a fence along the boundary of the Facility, Harvest seeks to waive the requirements of 49 CFR 193.2905 and 193.2907, which require protective enclosures surrounding LNG facilities. The draft conditions were determined preliminarily to ensure that the special permit is consistent with pipeline safety for the Facility in Alaska’s North Slope Borough.

The special permit request, draft proposed special permit with conditions, and draft environmental assessment (DEA) for the Facility are available for review and public comment in Docket No. PHMSA–2025–0546. PHMSA invites interested persons to review and submit comments in the docket on the special permit request, draft proposed special permit with attachments, and DEA. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the closing date. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, under authority delegated in 49 CFR 1.97.

Linda Daugherty,

Acting Associate Administrator for Pipeline Safety.

Title: Assessment of Fees.

OMB Control No.: 1557-0223.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Description: The OCC is requesting comment on its proposed extension, without change, of the information collection titled, "Assessment of Fees." The OCC is authorized by the National Bank Act (for national banks and Federal branches and agencies) and the Home Owners' Loan Act (for Federal savings associations) to collect assessments, fees, and other charges as necessary or appropriate to carry out the responsibilities of the OCC. 12 U.S.C. 16, 481, 482 and 1467. The OCC requires independent credit card national banks and independent credit card Federal savings associations (collectively, independent credit card institutions) to pay an additional assessment based on receivables attributable to accounts owned by the national bank or Federal savings association. 12 CFR 8.2(c). Independent credit card institutions are national banks or Federal savings associations that engage primarily in credit card operations and are not affiliated with a full-service national bank or full-service Federal savings association. 12 CFR 8.2(c)(3)(vi) and (vii). Under 12 CFR 8.2(c)(2), the OCC also has the authority to assess an independent credit card institution that is affiliated with a full-service national bank or full-service Federal savings association if the OCC concludes that the affiliation is intended to evade the requirements of 12 CFR part 8. The OCC requires independent credit card institutions to report receivables attributable data to the OCC semiannually or at a time specified by the OCC. 12 CFR 8.2(c)(4). "Receivables attributable" are the total amount of outstanding balances due on credit card accounts owned by independent credit card institutions (the receivables attributable to those accounts) on the last day of an assessment period minus receivables retained on the national bank or Federal savings association's balance sheet as of that day. 12 CFR 8.2(c)(3)(viii). The OCC uses the information to calculate the assessment for each national bank and Federal savings association and adjust the assessment rate for independent credit card institutions over time.

Estimated Burden

Estimated Frequency of Response: Semiannually.

Estimated Number of Respondents: 5.

Estimated Total Annual Burden: 10 hours.

Comments submitted in response to this notice will be summarized and

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;
