The investigation is terminated with a finding of no violation.

SUPPLEMENTARY INFORMATION: On March 18, 2024, the Commission instituted this investigation based on a complaint filed by Samsara, Inc. (''Samsara'') of San Francisco, California. 89 FR 19356 (March 18, 2024). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 (''section 337''), based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain vehicle telematics, fleet management, and video-based safety systems, devices, and components thereof by reason of the infringement of certain claims of U.S. Patent Nos. 11,611,621 (''the '621 patent''); 11,127,130 (''the '130 patent''); and 11,190,373 (''the '373 patent'') (collectively, the ''Asserted Patents''). The Commission's notice of investigation named Motive Technologies Inc. (''Motive'') of San Francisco, CA as the respondent. *Id.* The Office of Unfair Import Investigations (''OUII'') was also named as a party in this investigation. *Id.*

The presiding ALJ held an evidentiary hearing on November 14, 2024, and March 18–21, 24, and 25, 2025.

On September 8, 2025, the presiding ALJ issued the FID finding that there has been no violation of section 337. Specifically, the FID finds regarding the '621 patent that: (1) Samsara has not shown that claims 1–5 are infringed; (2) Motive has shown that claims 1, 2, 4, and 5 are invalid as anticipated; (3) Motive has not shown that claims 2–4 are invalid for obviousness; and (4) Samsara has satisfied the technical prong of the domestic industry requirement. For the '130 patent, the FID finds that: (1) Samsara has not shown that claims 1 and 5 are infringed; (2) Motive has not shown that claims 1 and 5 are invalid as anticipated or obvious; (3) Motive has shown that claims 1 and 5 are patent ineligible under 35 U.S.C. 101; and (4) Samsara has failed to satisfy the technical prong of the domestic industry requirement. Regarding the '373 patent, the FID finds that: (1) Samsara has shown that claim 15 is infringed as to Motive's ''Fuel Score v1'' and ''Fuel Score v2,'' but not as to Motive's ''Fuel Score v3;'' (2) Samsara has not shown that claim 18 is infringed; (3) Motive has not shown that claims 15 and 18 are invalid as anticipated or obvious; (4) Motive has shown that claims 15 and 18 are patent ineligible under 35 U.S.C. 101; and (5) Samsara has not satisfied the technical prong of the domestic industry requirement. The FID also finds that Samsara has failed to satisfy the economic prong of the domestic industry requirement for any of the Asserted Patents.

The FID includes a Recommended Determination on Remedy and Bonding (''RD''). The RD recommends that if the Commission finds a violation, it should issue a limited exclusion order and a cease and desist order against Motive, and that the Commission should impose a one hundred percent (100%) bond during the period of Presidential review.

On September 22, 2025, Samsara filed a petition for review of the FID, requesting review of the findings that: (1) Samsara has not shown that the accused products infringe claims 1–5 of the '621 patent; (2) Motive has shown that claims 1, 2, 4, and 5 of the '621 patent are invalid under 35 U.S.C. 102; (3) Samsara has not shown that the
