DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by March 19, 2026 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Generic Clearance to Conduct Formative Research or Development of Nutrition Education and Promotion Materials and Related Tools and Grants for FNS Population Groups.

OMB Control Number: 0584–0524.

Summary of Collection: This information collection is based on Section 19 of the Child Nutrition Act of 1966 (42 U.S.C. 1787), Section 5 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1754) and Section 11(f) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020). This request for approval of information collection is necessary to obtain input into the development of nutrition education interventions for population groups served by the U.S. Department of Agriculture, Food and Nutrition Service (USDA–FNS). FNS also uses this collection to obtain input that can be used to develop and assess grants. Interventions need to be designed so that they can be delivered through different types of media and in a variety of formats for different audiences.

Need And Use of the Information: Obtaining formative input and feedback is fundamental to FNS' success in delivering science-based nutrition messages and reaching different segments of the population in ways that are meaningful and relevant. This includes conferring with target audiences, individuals who serve the target audiences, and key stakeholders on the communication strategies and interventions that will be developed and on the delivery approaches that will be used to reach customers. The formative research and testing activities described will help in the development of effective education and promotion tools and communication strategies. Collection of this information will increase FNS' ability to formulate nutrition education interventions that resonate with the intended target population, particularly low-income families.

FNS also uses formative input and feedback to determine how best to develop and assess grants, so that grant recipients can successfully achieve the intended outcomes of the grants. To this end, FNS confers with grant recipients to obtain input regarding their experiences, expectations, challenges, and lessons learned while implementing the grant.

Description of Respondents: Individuals and Households, Businesses and Organizations, State, Local and/or Tribal Government.

Number of Respondents: 120,710.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 46,823.

CENSUS BUREAU

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Local Update of Census Addresses (LUCA) Operation

AGENCY: Census Bureau, Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act (PRA) of 1995, invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the proposed reinstatement, with change, of the Local Update of Census Addresses (LUCA) operation, prior to the submission of the information collection request (ICR) to OMB for approval.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before April 20, 2026.

ADDRESSES: Interested persons are invited to submit written comments by email to dcmd.pra@census.gov. Please reference “Local Update of Census Addresses (LUCA) operation” in the subject line of your comments. You may also submit comments, identified by Docket Number USBC–2026–0001, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in

Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Michael Snow, Supervisory Program Analyst, Decennial Census Management Division, by phone at 301–763–9912 or by email to dcmd.pra@census.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Local Update of Census Addresses (LUCA) operation is an opportunity provided by the U.S. Census Bureau to enable tribal, state, and general-purpose local governments to review and comment on the Census Address List for their respective jurisdictions prior to the decennial census. The Census Address List Improvement Act of 1994 (Pub. L. 103–430), codified at 13 U.S.C. 16, expanded the Census Bureau's authority to share selected address information with tribal, state, and general-purpose local governments for the purpose of improving the residential address list. The LUCA operation is conducted pursuant to this authority and focuses on the review and submission of residential address information, including individual housing units, group quarters, and transitory locations, in support of a complete and accurate census count. There are multiple steps within the LUCA operation that are outlined later in this notice. LUCA is available to legally defined federally recognized Native American and Alaska Native areas (including the Alaska Native Regional Corporations), states, governmentally active counties, and equivalent entities, incorporated places, and legally defined minor civil divisions (MCDs) for which the Census Bureau reports data. Participation in the LUCA program is voluntary.

2030 LUCA will occur between May 2027 and September 2029. LUCA is designed to ensure all governments can review the Census Address list prior to the 2030 Census and comprises four phases:

- LUCA Prep.
- LUCA Review.
- Feedback and Appeals.
- LUCA Closeout.

LUCA is a reinstated program from the previous decade. The Census Bureau has introduced multiple new tools to assist participants with conducting their work, such as an address matching service, web-based tools that eliminate the need for the download of software, and a secure portal to facilitate communication and registration.
