SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical

utility; (2) the accuracy of FDA’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Adverse Events Associated With New Animal Drugs—21 CFR 510.301 and 514.80

OMB Control Number 0910–0284—Extension

This information collection supports statutory and regulatory requirements governing reporting associated with certain animal drug products. With regard to adverse events and product/manufacturing defects associated with approved new animal drugs, section 512(l) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360b(1)) requires applicants with

approved new animal drug applications (NADAs) and abbreviated new animal drug applications (ANADAs) to establish and maintain records and reports of data relating to experience with uses of such drug, or with respect to animal feeds bearing or containing such drug, to facilitate a determination under section 512(e) as to whether there may be grounds for suspending or withdrawing approval of the NADA or ANADA under section 512(e) or 512(m)(4). Regulations in § 514.80 (21 CFR 514.80) require the electronic submission of postmarketing safety reports for approved new animal drugs but provide a procedure for requesting a temporary waiver from the requirement. We, therefore, retain use of certain paper-based forms. Section 514.80 requires applicants and nonapplicants to keep records of and report to us data, studies, and other information concerning experience with new animal drugs for each approved NADA and ANADA.

Following complaints from animal owners or veterinarians, or following their own detection of a problem,

applicants or nonapplicants are required to submit adverse event reports and product/manufacturing defect reports under § 514.80(b)(1), (b)(2)(i) and (ii), (b)(3), and (b)(4)(iv)(A) and (C) on Form FDA 1932 (to include FDA 1932 and 1932a (e-form)). The information collection also includes Form FDA 2301; Transmittal of Periodic Reports and Promotional Material for New Animal Drugs.

The information collection also includes submissions under § 514.80(d)(2), by an applicant or nonapplicant requesting, in writing, a temporary waiver of the electronic submission requirements. The initial request may be by telephone or email to CVM’s Division of Pharmacovigilance and Surveillance, with prompt written follow-up submitted as a letter to the application(s). FDA will grant waivers on a limited basis for good cause shown. If FDA grants a waiver, the applicant or nonapplicant must comply with the conditions for reporting specified by FDA upon granting the waiver.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN^{1 2}

21 CFR section	Form No.	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Medicated feed reports, 510.301(a) and (b)	N/A	7	1	7	.5 (30 minutes)	3.5
Submission of postmarketing safety reports under § 514.80(b)(1), (2)(i) and (ii), (3) , and (4)(iv)(A) and (C).	1932	85	1262.94	107,350	1	107,350

514.80(b)(4) Periodic Drug Experience Reports	2301	66	24.68	1,629	16	26,064
514.80(b)(5)(i) Special Drug Experience Reports	2301	52	363.2	18,886	2	37,772

514.80(d)(2)	N/A	1	1	1	1	1
Total				139,561		194,349.5

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.
² Sums may not total due to rounding.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN¹

21 CFR section	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
Recordkeeping, 510.301 ²	7	1	7	4	28
Recordkeeping, 21 U.S.C. 360b(1) and 514.80(e) ³	79	1,575.14	124,436	14	1,742,104
Total			124,443		1,742,132

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.
² This estimate includes all recordkeeping by licensed medicated feed manufacturers under § 510.301.
³ This estimate includes all recordkeeping by applicants of approved NADAs, ANADAs, and conditional NADAs under § 514.80(e).

Our estimated burden for the information collection reflects an overall increase of 22,073.50 hours and a corresponding increase of 15,117 responses. We attribute this adjustment to an increase in the number of submissions we received over the last few years. An increase of safety reports

represents a pattern that aligns with expectations—as product availability and usage expand, adverse event reporting increases proportionally. The recent three-year increase appears to be a continuation of this established

pattern rather than an indication of new safety concerns.
