FOR FURTHER INFORMATION CONTACT: Brendan Willig, Utah State Office, by phone at (385) 835–2123. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Department of the Interior, Central Utah Project Completion Act Office, submitted a petition/application to the Secretary of the Interior to extend PLO No. 7668 (71 FR 42661) for an additional 20-year term, subject to valid existing rights. The Secretary approved the petition; therefore, the request has become a Secretarial proposal for withdrawal extension. The legal land description for NFS lands proposed for the withdrawal extension has been corrected. While the overall footprint of the withdrawal remains unchanged, the acreage identified in PLO No. 7668 has been updated to 6,558.96 acres to align with the official land description. Additionally, two parcels originally included in the PLO have been identified as non-Federal land; however, if these parcels are subsequently acquired by the United States, they would become subject to the withdrawal. The corrected land description for the withdrawal is described as follows:

The total areas described aggregate 6,558.96 acres, in Utah County.

The lands described aggregate 80 acres, in Utah County.

The use of a right-of-way, interagency agreement, or cooperative agreement would not constrain nondiscretionary uses.

No water rights would be needed to fulfill the purpose of this withdrawal extension.

For a period until May 26, 2026, all persons who wish to submit comments, suggestions, or objections in connection with this proposed withdrawal extension may present their views in writing to the BLM Utah State Director at the address indicated above. Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Notice of Opening Order

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice announces the land withdrawn by Executive Order (E.O.) No. 5327 dated April 15, 1930, which was subsequently revoked by Public Land Order (PLO) No. 7725, as described below, is opened to location and entry under the United States mining law only as it relates to non-metalliferous minerals on the date and time stated.

DATES: Effective on February 23, 2026.

FOR FURTHER INFORMATION CONTACT: Brendan Willig, BLM, Utah State Office, at (801) 539–4292, email at bwilling@blm.gov, or write to Branch of Lands and Realty, 440 West 200 South, Suite 500, Salt Lake City, Utah 84101. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: On April 15, 1930, E.O. No. 5327 established a withdrawal that restricted surface entry on lands believed to contain oil shale deposits, including location and entry under the United States mining laws for non-metalliferous minerals. PLO No. 7725 (74 FR 830, Jan. 8, 2009) subsequently revoked the withdrawal created by E.O. No. 5327 and restored the affected lands to oil shale leasing and the operation of public land laws. However, the lands remained closed to location and entry under the United States mining laws until completion of an analysis to determine if any lands needed special designation and protection. The Bureau of Land Management (BLM) conducted an analysis of the effect of the land being opened to non-metalliferous mining as described below and determined that

such opening would be in conformance with the relevant land use plans. Pursuant to Federal Regulations under 43 CFR 2091.6, the following described lands are hereby opened to location and entry under the United States mining laws only for non-metalliferous minerals:

Salt Lake Meridian, Utah

T. 15 S., R. 1 E.,

Sec. 31, lots 1 thru 14, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and N $\frac{1}{2}$ SE $\frac{1}{4}$.

The area described contains 999.41 acres, according to the official plat of survey of said land, on file with the BLM.

At 9 a.m. Mountain Time (MT) on February 23, 2026, the lands and Federal minerals described above will be opened to location and entry under the United States mining laws for non-metalliferous minerals, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and of applicable law. All valid applications received at or prior to 9 a.m. MT on February 23, 2026, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. Appropriation of any of the lands referenced in this notice prior to the date and time of opening will be rejected.

State Director, Acting.
