

11:59 p.m. ET. The Planning Grant application system will open by May 11, 2026, and applications will be due by June 30, 2026, at 11:59 p.m. ET. Applications in both categories will undergo a similar rigorous staff review process, with final funding decisions made by LSC's President.

B. Late or Incomplete Applications

LSC may consider a request to submit a pre-application after the deadline, but only if the applicant has submitted an email to techgrants@lsc.gov explaining the circumstances that caused the delay prior to the pre-application deadline. Communication with LSC staff, including assigned program liaisons, is not a substitute for sending a formal request and explanation to techgrants@lsc.gov.

At its discretion, LSC may consider incomplete applications. LSC will determine whether it will consider late or incomplete applications on a case-by-case basis.

C. Multiple Pre-Applications

Applicants may submit multiple pre-applications. If applying for multiple grants that require pre-applications, applicants should submit separate pre-applications for each funding request.

Applicants may only submit one application per year in the Technology Improvement Project (TIP) grant category.

D. Additional Information and Guidelines

Additional guidance and instructions on the pre-application and application processes for Technology Initiative Grants will be available and regularly updated at <https://www.lsc.gov/grants/technology-initiative-grant-program>.

SUPPLEMENTARY INFORMATION: The NRC is proposing to revise the following systems of records: NRC 5, "Grants Management System"; NRC 32, "Office of the Chief Financial Officer Financial Transactions and Debt Collection Management Records"; and NRC 41, "Tort Claims and Personal Property Claims Records." The revisions add a new routine use authorizing disclosure of information to the U.S. Department of the Treasury for the purpose of reviewing payment and award eligibility through the Do Not Pay Working System, in order to identify, prevent, or recover improper payments.

These revisions are consistent with OMB Memorandum M-25-32, "Advancing Payments Accuracy and

Equity in Federal Programs,” and Executive Order 14249, “Improper Payments Elimination and Recovery.” The new routine use will strengthen the NRC’s ability to ensure program integrity and compliance with government-wide payment accuracy requirements.

A report on these revisions has been sent to OMB, the Committee on Homeland Security and Governmental Affairs of U.S. Senate, and the Committee on Oversight and Accountability of the U.S. House of Representatives, as required by the Privacy Act.

If changes are made based on the NRC’s review of comments received, the NRC will publish a subsequent notice.

These systems of records are maintained by the NRC and contain personal information about individuals that is retrieved by an individual’s name or identifier.

The notice for each system of records states the name and location of the record system, the authority for and manner of its operation, the categories of individuals that it covers, the types of records that it contains, the sources of information in those records and the routine uses of each system of records. Each notice also includes the business address of the NRC official who will inform interested persons of the procedures whereby they may gain access to and request amendment of records pertaining to them.

The Privacy Act provides certain safeguards for an individual against an invasion of personal privacy by requiring Federal agencies to protect records contained in an agency system of records from unauthorized disclosure and to ensure that information is current and accurate for its intended use and that adequate safeguards are provided to prevent misuse of such information.

RECORD SOURCE CATEGORIES:

Record source categories include, but are not limited to, individuals covered by the system, their attorneys, or other representatives; NRC; collection agencies or contractors; employing agencies of debtors; and Federal, State, and local agencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Pursuant to an interagency agreement, the NRC may disclose records to Treasury ARC, acting as a federal shared service provider, to perform authorized transactional services in support of the NRC's core financial system, the Financial Accounting and Integrated Management Information System (FAIMIS).

In addition to the other types of disclosures permitted under subsection (b) of the Privacy Act, the NRC may disclose information contained in this system of records without the consent of the subject individual if the disclosure is compatible with the purpose for which the record was collected under the following routine uses or, where determined to be appropriate and necessary, the NRC may authorize Treasury ARC to make the disclosure:

a. To debt collection contractors (31 U.S.C. 3718) or to other Federal agencies such as the U.S. Department of the Treasury (Treasury) and the U.S. Department of Interior (DOI) for the purpose of collecting and reporting on delinquent debts as authorized by the Debt Collection Act of 1982 or the Debt Collection Improvement Act (DCIA) of 1996 and the Digital Accountability and Transparency Act (DATA) of 2014;

b. To Treasury; the Defense Manpower Data Center, Department of Defense; the United States Postal Service; government corporations; or any other Federal, State, or local agency to conduct an authorized computer matching program in compliance with the Privacy Act of 1974, as amended, to identify and locate individuals, including Federal employees, who are delinquent in their repayment of certain debts owed to the U.S. Government, including those incurred under certain programs or services administered by the NRC, in order to collect debts under common law or under the provisions of the Debt Collection Act of 1982 or the Debt Collection Improvement Act of 1996 and DATA of 2014 which include by voluntary repayment, administrative or salary offset, and referral to debt collection contractors;

c. To the U.S. Department of Justice, United States Attorney Treasury ARC, or other Federal agencies for further collection action on any delinquent account when circumstances warrant;

d. To credit reporting agencies/credit bureaus for the purpose of either adding to a credit history file or obtaining a credit history file or comparable credit information for use in the administration of debt collection. As authorized by the DCIA, NRC may report current (not delinquent) as well as delinquent consumer and commercial debt to these entities in order to aid in the collection of debts, typically by providing an incentive to the person to repay the debt timely;

e. To any Federal agency where the debtor is employed or receiving some form of remuneration for the purpose of enabling that agency to collect a debt owed the Federal Government on NRC's behalf by counseling the debtor for voluntary repayment or by initiating administrative or salary offset procedures, or other authorized debt collection methods under the provisions of the Debt Collection Act of 1982 or the DCIA of 1996. Under the DCIA, NRC may garnish non-Federal wages of certain delinquent debtors so long as required due process procedures are followed. In these instances, NRC's notice to the employer will disclose only the information that may be

necessary for the employer to comply with the withholding order;

f. To the Internal Revenue Service (IRS) by computer matching to obtain the mailing address of a taxpayer for the purpose of locating such taxpayer to collect or to compromise a Federal claim by NRC against the taxpayer under 26 U.S.C. 6103(m)(2) and under 31 U.S.C. 3711, 3717, and 3718 or common law. Re-disclosure of a mailing address obtained from the IRS may be made only for debt collection purposes, including to a debt collection agent to facilitate the collection or compromise of a Federal claim under the Debt Collection Act of 1982 or the DCIA of 1996, except that re-disclosure of a mailing address to a reporting agency is for the limited purpose of obtaining a credit report on the particular taxpayer. Any mailing address information obtained from the IRS will not be used or shared for any other NRC purpose or disclosed by NRC to another Federal, State, or local agency which seeks to locate the same taxpayer for its own debt collection purposes;

g. To refer legally enforceable debts to the IRS or to Treasury's Debt Management Services to be offset against the debtor's tax refunds under the Federal Tax Refund Offset Program;

h. To prepare W-2, 1099, or other forms or electronic submittals, to forward to the IRS and applicable State and local governments for tax reporting purposes. Under the provisions of the DCIA, NRC is permitted to provide Treasury with Form 1099-C information on discharged debts so that Treasury may file the form on NRC's behalf with the IRS. W-2 and 1099 Forms contain information on items to be considered as income to an individual, including certain travel-related payments to employees, payments made to persons not treated as employees (e.g., fees to consultants and experts), and amounts written-off as legally or administratively uncollectible, in whole or in part;

i. To banks enrolled in the Treasury Credit Card Network to collect a payment or debt when the individual has given his or her credit card number for this purpose;

j. To another Federal agency that has asked the NRC to effect an administrative offset under common law or under 31 U.S.C. 3716 to help collect a debt owed the United States. Disclosure under this routine use is limited to name, address, SSN, EIN, TIN, ITIN, and other information necessary to identify the individual; information about the money payable to or held for the individual; and other information concerning the administrative offset;

k. To Treasury or other Federal agencies with whom NRC has entered into an agreement establishing the terms and conditions for debt collection cross servicing operations on behalf of the NRC to satisfy, in whole or in part, debts owed to the U.S. Government. Cross servicing includes the possible use of all debt collection tools such as administrative offset, tax refund offset, referral to debt collection contractors, salary offset, administrative wage garnishment, and referral to the U.S. Department of Justice. The DCIA of 2014 requires agencies to transfer to Treasury or Treasury-designated Debt Collection Centers for cross servicing certain nontax debt over 120 days delinquent. Treasury has the authority to act in the Federal Government's best interest to service, collect, compromise, suspend, or terminate collection action under existing laws under which the debts arise;

l. Information on past due, legally enforceable nontax debts more than 120 days delinquent will be referred to Treasury for the purpose of locating the debtor and/or effecting administrative offset against monies payable by the Government to the debtor or held by the Government for the debtor under the DCIA's mandatory, Government-wide Treasury Offset Program (TOP). Under TOP, Treasury maintains a database of all qualified delinquent nontax debts and works with agencies to match by computer their payments against the delinquent debtor database in order to divert payments to pay the delinquent debt. Treasury has the authority to waive the computer matching requirement for NRC and other agencies upon written certification that administrative due process notice requirements have been complied with;

m. For debt collection purposes, NRC may publish or otherwise publicly disseminate information regarding the identity of delinquent nontax debtors and the existence of the nontax debts under the provisions of the DCIA of 1996;

n. To the U.S. Department of Labor (DOL) and the U.S. Department of Health and Human Services (HHS) to conduct an authorized computer matching program in compliance with the Privacy Act of 1974, as amended, to match NRC's debtor records with records of DOL and HHS to obtain names, name controls, names of employers, addresses, dates of birth, and TINs. The DCIA requires all Federal agencies to obtain TINs from each individual or entity doing business with the agency, including applicants and recipients of licenses, grants, or benefit payments; contractors; and entities and

individuals owing fines, fees, or penalties to the agency. NRC will use TINs in collecting and reporting any delinquent amounts resulting from the activity and in making payments;

o. To the U.S. Department of the Treasury when disclosure of the information is relevant to review payment and award eligibility through the Do Not Pay Working System for the purposes of identifying, preventing, or recouping improper payments to an applicant for, or recipient of, Federal funds, including funds disbursed by a state (meaning a state of the United States, the District of Columbia, a territory or possession of the United States, or a federally-recognized Indian tribe) in a state administered, federally funded program.

p. If NRC decides or is required to sell a delinquent nontax debt under 31 U.S.C. 3711(I), information in this system of records may be disclosed to purchasers, potential purchasers, and contractors engaged to assist in the sale or to obtain information necessary for potential purchasers to formulate bids and information necessary for purchasers to pursue collection remedies;

q. If NRC has current and delinquent collateralized nontax debts under 31 U.S.C. 3711(i)(4)(A), certain information in this system of records on its portfolio of loans, notes and guarantees, and other collateralized debts will be reported to Congress based on standards developed by the Office of Management and Budget, in consultation with Treasury;

r. To Treasury, in order to request a payment to individuals owed money by the NRC;

s. To the National Archives and Records Administration or to the General Services Administration for records management inspections conducted under 44 U.S.C. 2904 and 2906;

t. A record from this system of records which indicates a violation of civil or criminal law, regulation or order may be referred as a routine use to a Federal, State, local, or foreign agency that has authority to investigate, enforce, implement or prosecute such laws. Further, a record from this system of records may be disclosed for civil or criminal law or regulatory enforcement purposes to another agency in response to a written request from that agency's head or an official who has been delegated such authority;

u. A record from this system of records may be disclosed as a routine use to a Federal, State, local, or foreign agency to obtain information relevant to an NRC decision concerning hiring or

retaining an employee, letting a contract, or issuing a security clearance, license, grant or other benefit;

v. A record from this system of records may be disclosed as a routine use to a Federal, State, local, or foreign agency requesting a record that is relevant and necessary to its decision on a matter of hiring or retaining an employee, issuing a security clearance, reporting an investigation of an employee, letting a contract, or issuing a license, grant, or other benefit;

w. A record from this system of records may be disclosed as a routine use in the course of discovery; in presenting evidence to a court, magistrate, administrative tribunal, or grand jury or pursuant to a qualifying order from any of those; in alternative dispute resolution proceedings, such as arbitration or mediation; or in the course of settlement negotiations;

x. A record from this system of records may be disclosed as a routine use to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual;

y. A record from this system of records may be disclosed as a routine use to NRC-paid experts or consultants, and those under contract with the NRC on a "need-to-know" basis for a purpose within the scope of the pertinent NRC task. This access will be granted to an NRC contractor or employee of such contractor by a system manager only after satisfactory justification has been provided to the system manager;

z. A record from this system of records may be disclosed as a routine use to appropriate agencies, entities, and persons when (1) NRC suspects or has confirmed that there has been a breach of the system of records, (2) NRC has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, NRC (including its information systems, programs, and operations), the Federal Government, or national security, and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with NRC efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm; and

aa. A record from this system of records may be disclosed as a routine use to another Federal agency or Federal entity, when the NRC determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to

individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Financial transaction records are destroyed 6 years after final payment or cancellation, but longer retention is authorized if required for business use. Since the General Records Schedule (GRS) allows for longer retention, NRC chooses to retain records for 7 years as required for its business use, before destruction. Administrative claims by or against the United States are retained according to General Records Schedule 1.1, item 080. Administrative claims records are destroyed 7 years after final action, but longer retention is authorized if required for business use. Litigation Case Files, are retained according to NRC's NUREG 0910, Revision 4, Part 2.12.7. Records are permanent. Transfer to the National Archives 20 years after cases are closed.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The paper records are stored in locked file cabinets and access is restricted to those agency personnel whose official duties and responsibilities require access. Automated records are protected by a combination of technical and administrative safeguards. Technical safeguards include user authentication mechanisms via PIV card, PIN protection, role-based access controls, and system monitoring consistent with agency security policies. Administrative

safeguards include limiting access to authorized personnel with a demonstrated need to know, and periodic reviews of user access.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289; NRC-2026-0397]

Constellation Energy Generation, LLC; Christopher M. Crane Clean Energy Center; Applications for Amendments to Renewed Facility License Involving Proposed No Significant Hazards Consideration Determination and Containing Safeguards Information and Order Imposing Procedures for Access to Safeguards Information

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment request (LAR); notice of opportunity to comment, request a hearing, and petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) received and is considering issuance of three amendments to Renewed Facility License (RFL) No. DPR-50 for the Christopher M. Crane Clean Energy Center (CCEC), which were requested by Constellation Energy Generation, LLC (CEG) to support the potential reauthorization of power operations at the CCEC. For each amendment request, the NRC proposes to determine that they involve no significant hazards consideration (NSHC). Because potential parties may deem it necessary to obtain access to safeguards information (SGI) to meet Commission requirements for intervention, the NRC is issuing an order imposing procedures to obtain access to SGI for contention preparation by persons who file a hearing request or petition for leave to intervene.

DATES: Comments must be filed by March 26, 2026. A request for a hearing or petitions for leave to intervene must be filed by April 27, 2026. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SGI is necessary to respond to this notice must request document access by March 6, 2026.
