

discrimination, such as through a demonstration of overly burdensome terms, whereby only affiliated shippers could contract for the service. The Commission will address issues related to Affiliate-Only Committed Service if they arise in individual proceedings. We reiterate that pipelines proposing to implement Affiliate-Only Committed Service have the burden to include sufficient information to support a finding that the Affiliate-Only Committed Service complies with the ICA.³³

13. For these reasons, based on the existing record, we conclude that issues related to Affiliate-Only Committed Services can be addressed on a case-by-case basis, rather than through a generic policy statement. We therefore exercise our discretion to withdraw the Proposed Policy Statement and terminate this proceeding.

The Commission Orders

The Proposed Policy Statement is hereby withdrawn and Docket No. PL23–1–000 is hereby terminated.

By the Commission.

[Project No. 3451–047]

Beaver Falls Municipal Authority; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Townsend Water Power Project No. 3451 (project). The project is located on the Beaver River in Beaver County, Pennsylvania. Commission staff has

prepared an Environmental Assessment (EA) for the project.¹

The EA contains the staff’s analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission’s Home Page (<http://www.ferc.gov>), using the “eLibrary” link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
