Abstract: Reclamation is responsible for recreation development at all of its reservoirs. Presently, there are more than 240 designated recreation areas on our lands within the 17 Western States hosting approximately 40 million visitors annually. As a result, we must be able to respond to emerging trends, changes in the demographic profile of users, changing values, needs, wants, and desires, and conflicts between user groups.

Statistically valid and up-to-date data derived from the user is essential to developing and providing recreation programs relevant to today's visitor. Reclamation is requesting re-approval for the collection of data from recreational users on Reclamation lands and waterbodies.

To meet our needs for the collection of visitor use data, we will be requesting OMB to authorize a two-part request: survey questions for our regional offices to choose from, and a survey form template. This will allow for a custom designed survey instrument to fit a specific activity or recreation site. The custom designed survey would be created by extracting questions from the approved list of survey questions that are applicable to the recreation area and issue being evaluated. Only questions included in the pre-approved list of survey questions will be used.

Revisions to this collection will be made to adjust respondent demographic questions to conform with Executive Order 14168, "Defending Women From Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" (January 20, 2025) and OMB's "2024 Statistical Policy Directive No. 15: Federal Race and Ethnicity Data Standards."

Title of Collection: Recreation Survey Questions.

OMB Control Number: 1006-0028.

Form Number: 7-2675, Recreation Survey Questions.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Respondents to the surveys will be members of the public engaged in recreational activities on Reclamation lands and waterbodies. Visitors will primarily consist of local residents, people from large metropolitan areas in

the vicinity of the lake/reservoir, and people from out of state.

Total Estimated Number of Annual Respondents: 696.

Total Estimated Number of Annual Responses: 696.

Estimated Completion Time per Response: 15 minutes per survey (an average of 20 questions will be used on each survey; each question will take approximately 45 seconds to complete on average).

Total Estimated Number of Annual Burden Hours: 140.

Respondent's Obligation: Voluntary.
Frequency of Collection: Twice annually.

Total Estimated Annual Nonhour Burden cost: None.

Reclamation estimates that there will be a total of 140 out of 696 contacts that choose not to respond to the survey. These non-respondents account for 1 burden hour per year.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq).

Stephanie McPhee,

Acting Information Collection Clearance Officer, Bureau of Reclamation.
