

**POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:**

Records may be retrieved by name, SSN, DoD ID number, occupation, or any other data element contained in system.

**POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:**

Records are retained as follows: (1) Input/source records are deleted or destroyed after data have been entered into the master file or when no longer needed for operational purposes, whichever is later. Exception: Apply NARA-approved disposition instructions to the data files residing in other DMDC data bases; (2) The Master File is retained permanently. At the end of the fiscal year, a snapshot is taken and transferred to the National Archives in accordance with 36 CFR part 1228.270 and 36 CFR part 1234; (3) Output records (electronic or paper summary reports) are deleted or destroyed when no longer needed for operational purposes. Note: This disposition instruction applies only to recordkeeping copies of the reports retained by DMDC. The DoD office requiring creation of the report should maintain its recordkeeping copy in accordance with NARA approved disposition instructions for such reports; (4) System documentation (codebooks, record layouts, and other system documentation) are retained permanently and transferred to the National Archives along with the master file in accordance with 36 CFR part 1228.270 and 36 CFR part 1234.

**ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:**

DoD safeguards records in this system of records according to applicable rules, policies, and procedures, including all applicable DoD automated systems security and access policies. DoD administrative safeguards include policies requiring the use of controls to minimize the risk of compromise of personally identifiable information (PII) in paper and electronic form and restrict access to those individuals who have a need-to-know and appropriate clearances. Additionally, DoD has established security audit and accountability policies and procedures which support the safeguarding of PII and detection of incidents involving PII (breaches). DoD also employs administrative controls including mandatory information assurance and privacy training for individuals who will have access; identification, marking, and safeguarding of PII. Personnel, including contractors, must pass a background investigation and

receive a security clearance, when necessary. Personnel must also sign nondisclosure documents. DoD routinely employs technical safeguards such as the following: multifactor authentication including presentation of a Common Access Card (CAC) and password; and use of a physical token. Other technological controls are employed such as network encryption to protect data transmitted over the network; disk encryption securing disks storing data; key management services to safeguard encryption keys; masking of sensitive data as practicable; detection and electronic alert systems for access to servers and other network infrastructure; and electronic intrusion detection systems in DoD facilities. Computerized records are stored in a controlled area accessible only to authorized personnel. Records are maintained in a controlled facility and physical entry is restricted by the use of locks, guards, and is accessible only to authorized personnel. Physical and electronic access is restricted to designated individuals having a need for access in the performance of official duties and who are properly screened and cleared for need-to-know.

**RECORD ACCESS PROCEDURES:**

Individuals seeking access to their records should address written inquiries to the Office of the Secretary of Defense/ Joint Staff Freedom of Information Act Requester Service Center, 1155 Defense Pentagon, Washington, DC 20301-1155; Requester Service Center website: <https://www.esd.whs.mil/FOID>. Attorneys or other persons acting on behalf of an individual must provide written authorization from the individual for their representative to act on their behalf.

**CONTESTING RECORD PROCEDURES:**

The DoD rules for accessing records, contesting contents, and appealing initial Component determinations are contained in 32 CFR part 310, or may be obtained from the system manager.
