FEDERAL RESERVE SYSTEM

Privacy Act of 1974; System of Records

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, notice is given that the Board of Governors of the Federal Reserve System (Board) proposes to modify an existing system of records, entitled BGFERS-14, “FRB—General File of Reserve Bank and Branch Directors.” BGFERS-14 is a system of records that enables Board staff to develop, implement, and communicate the Board’s program regarding Federal Reserve Bank and Branch directors including the appointment of Class C directors and Board-appointed Branch directors; the eligibility, conduct, and service of all directors; the composition of Reserve Bank and Branch boards; and the interactions among the Board and the Federal Reserve Bank and Branch directors.

DATES: Comments must be received on or before April 16, 2026. This new system of records will become effective April 16, 2026, without further notice, unless comments dictate otherwise. The Office of Management and Budget (OMB), which has oversight responsibility under the Privacy Act,

requires a 30-day period prior to publication in the **Federal Register** in which to review the system and to provide any comments to the agency. The public is then given a 30-day period in which to comment, in accordance with 5 U.S.C. 552a(e)(4) and (11).

ADDRESSES: You may submit comments, identified by BGFERS-14 “FRB—General File of Federal Reserve Bank and Branch Directors,” by any of the following methods:

- *Agency Website:* <https://www.federalreserve.gov/apps/proposals/>. Follow the instructions for submitting comments, including attachments. *Preferred Method.*

SUPPLEMENTARY INFORMATION: The Board is modifying BGFERS-14 to update the system to expand the system’s purpose, the category of individuals and records covered by the system, the records source categories, and to amend the system-specific routine use. The Board is also taking the opportunity to update the system manager contact information,

add a link to the Board’s routine uses, and update the policies and practices for storage of Board records.

BGFERS-14 outlines in its purpose and scope the broad purpose of the system, which is that the system facilitates the Board’s oversight of the conduct and service of Federal Reserve Bank and Branch directors (“directors”). Upon reviewing the system, staff determined that while “oversight” is a broad term, the purpose and use of the system could be revised to more directly identify matters encompassed by the term “oversight.” Specifically, staff’s oversight of the directors encompasses matters pertaining to the eligibility, conduct, and service related to all directors. It also includes the Board’s appointment of Class C directors and Board-appointed Branch directors. This oversight also includes using the data to analyze the composition of Reserve Bank and Branch boards, for example, to track the Board’s progress on ensuring that these boards include a variety of perspectives, backgrounds, and experiences. The data is also used to facilitate interactions between the Board and the directors, including through a variety of director conferences throughout the year. The Board is modifying the purpose of the system to clarify what the system encompasses.

The Board has also determined that its oversight of the directors requires the collection of additional information. Specifically, the Board will collect information from additional record sources to include candidates for director positions in addition to both past and present directors. Therefore, the Board is modifying the category of records and category of individuals in the system to encompass biographical and background information for directors and candidates. The Board is also modifying the record sources categories to reflect the collection of contact information for director/candidate staff assistants and demographic information either on a voluntary basis from directors or candidates or from publicly available information.

The Board is amending the existing system-specific routine use because the routine use was incorrectly drafted. Specifically, using the records as background information for determining qualifications for appointment and recording correspondence concerning such persons would not usually involve the disclosure of information outside of the Board. The Board is therefore modifying the use to cover only disclosures outside of the Board to provide information for news releases and other publications and is also

providing a link to the Board's routine uses.

The Board is further modifying the system to indicate that the Board stores records in electronic form and that remaining paper records are now historical records, which the Board will maintain for the appropriate retention period. The Board is also updating the contact information for the system manager.

The Board is also making technical changes to BGFRS-14 consistent with the template laid out in OMB Circular No. A-108. Accordingly, the Board has made technical corrections and non-substantive language revisions to the following categories: "Policies and Practices for Storage of Records," "Policies and Practices for Retrieval of Records," "Policies and Practices for Retention and Disposal of Records," "Administrative, Technical and Physical Safeguards," "Record Access Procedures," "Contesting Record Procedures," and "Notification Procedures."
