

authority for an additional five-year term. App. at 2.

According to the Application, MAG is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) “to engage in wholesale sales of electric energy, capacity and ancillary services at market-based rates.” App. at 3. MAG states that it is an independent Canadian corporation with its principal place of business in Montreal, Quebec. *Id.* MAG further represents that it is “a Canadian close corporation privately owned by a group of 15 shareholders” and does not “have any direct involvement with the energy industry other than through the ownership of MAG.” *Id.*

The Applicant represents that it “will purchase power to be exported from a variety of sources such as power marketers, independent power producers, or U.S. electric utilities and federal power marketing entities[.]” App. at 4. MAG contends that its exports “will not impair or tend to impede the sufficiency of electric supplies in the U.S. or the regional coordination of electric utility planning or operations.” *Id.* at 5. MAG further represents that it “will schedule its transactions with the appropriate balancing authority areas in compliance with the reliability criteria standards and guidelines established by the North American [Electric] Reliability Corporation (NERC) and its member Regional Entities in effect at the time of the export.” *Id.*

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See App. at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at Electricity.Exports@hq.doe.gov. Protests should be filed in accordance with Rule 211 of FERC’s Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at Electricity.Exports@hq.doe.gov in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning MAG’s Application should be clearly marked with OE Docket No. EA–306–D. Additional copies are to be provided directly to Ruta Kalvaitis Skučas, Crowell & Moring LLP, 1001 Pennsylvania Avenue NW, Washington, DC 20004, rskucas@crowell.com; and Simon Pelletier, MAG Energy Solutions

Inc., 999 de Maisonneuve Boulevard West, Montreal, Quebec H3A 3L4 Canada, spelletier@magenenergysolutions.com.

A final decision will be made on the requested authorization DOE reviews the action pursuant to the National Environmental Policy Act Implementing Procedures (June 2025), including 10 CFR part 1021, and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at www.energy.gov/gdo/pending-applications-0 or by emailing Electricity.Exports@hq.doe.gov.

Signing Authority

This document of the Department of Energy was signed on February 20, 2026, by Catherine Jereza, Assistant Secretary, Office of Electricity, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE **Federal Register** Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on March 19, 2026.

Treana V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–528]

Application for Authorization To Export Electric Energy; Oswego Harbor Power LLC

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: Oswego Harbor Power LLC (Applicant) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 22, 2026.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Christina Gomer, (240) 474–2403, Electricity.Exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On January 8, 2026, the authority to issue such orders was delegated to the DOE’s Assistant Secretary for Electricity by Redelegation Order No. S3–DEL–OE1–2026.

On November 5, 2025, Oswego Harbor Power LLC filed an application with DOE (Application or App.) for authorization to transmit electric energy from the United States to Canada for a term of five years. App. at 2.

According to the Application, Oswego Harbor Power LLC is a “Delaware corporation that owns and operates an approximately 1,564 [megawatt] (summer rating) oil-fired generation facility in Oswego, New York” and that the Applicant is an “exempt wholesale generator that has been granted authorization by the Federal Energy Regulatory Commission (‘FERC’) to make sales at market-based rates.” App. at 2. Oswego Harbor Power LLC further represents that it is an indirect subsidiary of Alpha Generation, LLC, which “in turn, is a majority subsidiary of ArcLight Energy Partners Fund VII, L.P.” *Id.* at 3.

Oswego Harbor Power LLC seeks authorization to transmit electric energy to Canada, as it has “entered into a contractual arrangement to sell ‘installed capacity’ and associated energy.” App. at 4. The Applicant further states that “the energy that is associated with this commitment of installed capacity must be linked to the specific electric generating facility owned by the Applicant and . . . the output of such facility has not been committed to any system or purchaser within the United States.” *Id.* at 5. Due

to these commitments, the Applicant contends that its “proposed electricity exports will not impair or impede the sufficiency of electric power supplies in the United States or the regional coordination of electric utility planning or operations.” *Id.* Oswego Harbor Power LLC affirms it will continue to make “all necessary commercial arrangements and . . . regulatory approvals required in order to carry out any electricity exports,” including scheduling with all appropriate balancing authorities and compliance with the North American Electric Reliability Corporation (NERC) reliability standards and guidelines. *Id.* at 5–6.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See App.* at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at *Electricity.Exports@hq.doe.gov*. Protests should be filed in accordance with Rule 211 of FERC’s Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at *Electricity.Exports@hq.doe.gov* in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning the Application should be clearly marked with OE Docket No. EA–528. Additional copies are to be provided directly to Jason Buchman, Alpha Generation, LLC, 700 Louisiana Street, Suite 4400, Houston, Texas, 77002, *jbuchman@alphagen.com* and Neil Levy, McDermott Will & Schulte LLP, 500 North Capitol Street NW, Washington, DC 20001, *nlevy@mwe.com*.

A final decision will be made on the requested authorization after DOE reviews the action pursuant to its National Environmental Policy Act Implementing Procedures (June 2025), including 10 CFR part 1021, and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at *www.energy.gov/gdo/pending-applications-0* or by emailing *Electricity.Exports@hq.doe.gov*.

DEPARTMENT OF ENERGY

[OE Docket No. EA–375–C]

Application for Renewal of Authorization To Export Electric Energy; Rainbow Energy Marketing Corporation

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: Rainbow Energy Marketing Corporation (the Applicant or Rainbow) has applied for renewed authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 22, 2026.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to *Electricity.Exports@hq.doe.gov*.

FOR FURTHER INFORMATION CONTACT: Christina Gomer, (240) 474–2403, *Electricity.Exports@hq.doe.gov*.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act

(42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On January 8, 2026, the authority to issue such orders was delegated to the DOE’s Assistant Secretary for Electricity by Redesignation Order No. S3–DEL–OE1–2026.

On June 3, 2025, Rainbow filed an application with DOE (Application or App.) for renewal of their export authority for an additional five-year term. App. at 1.

According to the Application, Rainbow is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) “to sell energy, capacity and specified ancillary services at market-based rates.” App. at 3. Rainbow states that it a privately owned U.S. corporation with its principal place of business in Bismarck, North Dakota and “is part of a corporate family of companies that comprise United Energy Corporation[.]” *Id.* at 2. Rainbow maintains that it “does not own or control any physical electric generation or transmission facilities in the U.S. and does not have any franchised service territory in the U.S.” *Id.* at 3.

The Applicant represents that the proposed electricity exports are “surplus to the needs of those entities selling electric power to Rainbow.” App. at 5. Rainbow contends that the proposed electricity exports “will not impair the sufficiency of electric supply within the U.S. or impede regional coordination of electric utility planning or operation.” *Id.* Rainbow states that it will schedule “transactions with the appropriate balancing authority areas in compliance with the reliability criteria standards and guidelines established by the North American [Electric] Reliability Corporation and its member Regional Entities in effect at the time of the export.” *Id.*

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See App.* at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at *Electricity.Exports@hq.doe.gov*. Protests should be filed in accordance with Rule 211 of FERC’s Rules of Practice and Procedure (18 CFR
