SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The paperwork provisions of this standard specify requirements for developing, maintaining, and disclosing inspection records and written reports associated with logging operations.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions to protect workers, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the

information collection requirements, including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in Standard on Logging Operations. The agency is seeking an adjustment decrease in burden going from 1,507 to 1,355 hours, a difference of 32 hours. This decrease is due to the decrease in the number of establishments going from 7,559 to 7,465, and a decrease in the number of workers from 46,103 to 45,736.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Logging Operations Standard (29 CFR 1910.266).

OMB Control Number: 1218-0198.

Affected Public: Business or other for-profits.

Number of Respondents: 7,465.

Number of Responses: 45,736.

SUPPLEMENTARY INFORMATION:

I. Background

On August 16, 2022, President Biden signed H.R. 5376 (Pub. L. 117–169), a budget reconciliation measure commonly referred to as the “Inflation Reduction Act of 2022” (IRA). The IRA allows taxpayers to claim enhanced tax credit and deduction amounts in situations in which Davis-Bacon Act (DBA) prevailing wage rates are not

required but are voluntarily paid as a condition of claiming the enhanced amount. Taxpayers will generally be able to find the applicable prevailing wage rates for the various classifications of laborers and mechanics for the construction of their facility in wage determinations published on www.sam.gov. However, if no applicable wage determination is available on www.sam.gov, or if the wage determination that applies to the taxpayer’s project does not include wage rates for all of the labor classifications that will be needed for the construction, alteration, or repair of the facility, guidance from the U.S. Department of the Treasury specifies a process by which a taxpayer may request an additional classification or supplemental wage determination from the Wage and Hour Division (WHD). See *89 FR 53184*; and 26 CFR 1.45–7.

The purpose of this ICR is to obtain approval to collect the data needed to issue additional classifications and supplemental wage determinations for the universe of respondents who are not already included in the collection approved under 1235–0023 (those who are subject to the DBA and the Davis-Bacon Related Acts (DBRA)). This collection applies to those outside the scope of DBA/DBRA who will need an applicable additional classification or supplemental wage determination that are not in an existing wage determination to satisfy prevailing wage requirements and thereby take the enhanced tax credit and deduction amounts under the IRA.

This information collection is subject to the PRA. A federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the Office of Management and Budget (OMB) approves the ICR pursuant to the PRA and the ICR displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The Department obtains OMB approval for this information collection under Control Number 1235–0034.

OMB authorization for an ICR must be extended every three years, and the current approval for this collection will expire on May 31, 2026. The Department seeks to extend PRA authorization for this information collection for 3 more years, without any change to existing requirements. The Department notes that existing

information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.

Interested parties are encouraged to send comments to the Department at the address shown in the **ADDRESSES** section within 60 days of publication of this notice in the **Federal Register**. To help ensure appropriate consideration, comments should mention OMB Control Number 1235–0034.

II. Review Focus

- Enhance the quality, utility, and clarity of the information to be collected;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
