The National Worker Survey aims to estimate the prevalence of non-compliance with the Fair Labor Standards Act (FLSA) among nonexempt workers across various industries, with an emphasis on low-wage sectors. The survey employs both Address-Based Sampling to reach a representative sample of nonexempt U.S. workers and Respondent-Driven Sampling to gather data from workers in industries with higher incidences of wage and hour violations. The data collected will inform DOL in its efforts to improve compliance with the FLSA, optimize enforcement strategies, and enhance protections for vulnerable workers.
