requires prospective researchers who need access to confidential data to complete a research proposal. Researchers self-select whether they need access to confidential data to answer their research questions. The RDC requires the researcher to complete a research proposal, so NCHS understands the research proposed. The completed proposal is sent to NCHS through the SAP portal for review and adjudication. If the research proposal is approved by NCHS, then the researcher must fill out data security forms. If the researcher will access the data at a Research Data Center, then the ''Data Use Agreement Form'' and the ''Designated Agent Agreement Form'' would need to be completed and returned to NCHS. If the researcher will access the data through the NCHS Virtual Data Enclave (VDE), then the ''VDE Data Use Agreement Form'', ''Data Use Agreement Form'' and the ''Designated Agent Agreement Form'' would need to be completed and returned to NCHS.

To capture the information needed to adjudicate a researcher's commitment to protect confidential NCHS data, researchers must complete and sign these data security forms. This request allows for both researcher signature and the time per response for a total estimated annual burden total of 110 hours (330 hours for a three-year clearance period). There is no cost to a researcher other than their time to complete the forms, unless the researcher has to pay a nominal notary fee for services incurred. The resulting information will be used for NCHS internal purposes.

Submission for Office of Management and Budget Review; Generic Clearance for Reviewer Recruitment Forms

AGENCY: Office of Planning, Research, and Evaluation, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) proposes to extend approval of the existing overarching generic clearance for Reviewer Recruitment Forms (Office of Management and Budget (OMB) #: 0970–0477). No changes are proposed to the terms of the overarching generic. Burden estimates have been updated.

DATES: *Comments due May 1, 2026.*

ADDRESSES: The public may view and comment on this information collection request at: *https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202603-0970-008.* You can also obtain copies of the proposed collection of information by emailing *infocollection@acf.hhs.gov.* Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The overarching generic clearance for Reviewer Recruitment Forms provides ACF with the opportunity to collect information from potential reviewers, such as those who review grant proposals, conference proposals, research/evaluation plans, study designs, report drafts, and/or other ACF materials.

ACF developed this generic because each program office within ACF has slightly different needs for information about reviewer applicants based on the specific activities for which reviewers are needed, yet the individual forms submitted under the generic will serve an identical function. The overarching purpose is to select qualified reviewers for ACF review processes and activities based on professional qualifications. Information will be collected through questions on forms and documents provided by candidates. Example documents include writing samples and curriculum vitae and/or resumes. ACF uses the information collected to recruit well-qualified reviewers with relevant background experience and knowledge.

The abbreviated clearance process of the generic clearance allows program offices to gather a suitable pool of candidates within the varied time periods available for reviewer recruitment.

These forms submitted under this generic will be voluntary, low-burden and uncontroversial. Currently approved information collections are available for review on *RegInfo.gov: https://www.reginfo.gov/public/do/PRAICList?ref_nbr=202603-0970-011.*

Respondents: Individuals who may apply to review materials for ACF.

Annual Burden Estimates

The following burden estimates include burden associated with currently approved individual requests that ACF expects will be extended through this extension request and an estimate of burden for potential new requests under this generic. Based on the past 3 years and with a goal to reduce burden moving forward, the number of respondents has been reduced by 50 percent and the estimated time per response by 34 percent, from 30 to 20 minutes. Overall, burden for potential new requests is 67 percent less than the currently approved umbrella generic.
