FEDERAL PERMITTING IMPROVEMENT STEERING COUNCIL

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Permitting Improvement Steering Council.

ACTION: Notice of request for comments regarding the reinstatement of an OMB clearance, for an additional 30-Day comment period.

SUMMARY: In accordance with the Paperwork Reduction Act, the Federal Permitting Improvement Steering Council (Permitting Council) will be submitting to the Office of Management and Budget (OMB) a request to review and approve the reinstatement of an expired collection of information, previously approved as OMB Control No. 3121–0001, Permitting Notice of Initiation. The information collection was previously published in the **Federal Register** on January 16, 2026, for a 60-day public comment period. No comments were received.

DATES: Submit comments on or before April 30, 2026.

ADDRESSES: Please send your comments to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Anderson Tran at anderson.tran@permitting.gov or (202) 748–3727.

SUPPLEMENTARY INFORMATION:

Background: Established in 2015 by Title 41 of the Fixing America's Surface Transportation Act (FAST–41), 42 U.S.C. 4370m *et seq.*, the Permitting Council is a unique Federal agency charged with improving the transparency and predictability of the Federal environmental review and authorization process for certain infrastructure projects. The Permitting

Council is comprised of the Permitting Council Executive Director, who serves as the Council Chair; 13 Federal agency Council members (including deputy secretary-level designees of the Secretaries of Agriculture, Army, Commerce, Interior, Energy, Transportation, Defense, Homeland Security, and Housing and Urban Development, the Administrator of the Environmental Protection Agency, and the Chairs of the Federal Energy Regulatory Commission, Nuclear Regulatory Commission, and the Advisory Council on Historic Preservation); and the Chair of the Council on Environmental Quality and the Director of the OMB. 42 U.S.C. 4370m–1(a) & (b).

The Permitting Council coordinates Federal environmental reviews and authorizations for projects that seek and qualify for FAST–41 coverage. These projects are entitled to comprehensive permitting timetables, and a transparent and collaborative management of those timetables on the Federal Permitting Dashboard in compliance with FAST–41 procedural requirements. 42 U.S.C. 4370m–2(c) & (d). Sponsors of FAST–41 covered projects also benefit from the direct engagement of the Permitting Council Executive Director and the Permitting Council members in timely identification and resolution of permitting issues that affect covered projects' permitting timetables.

Collection of Information: FAST–41 is a voluntary program for project sponsors to have additional support through the environmental review and permitting process. The first step to becoming a covered project under FAST–41 is to submit a FAST–41 Initiation Notice (FIN), required by 42 U.S.C. 4370m–2(a)(1). The FIN must include the purpose of the project; a brief description; a statement of technical and financial feasibility; a statement of anticipated federal financing, reviews, and authorizations; and an assessment of whether the project meets the statutory definition of a “covered project” under FAST–41. 42 U.S.C. 4370m–2(a)(1)(C).

The FIN is a collection of information necessary for the administration of FAST–41. Such a collection of information is required to have approval under the Paperwork Reduction Act. Approval for the FIN was originally provided to the General Services Administration (GSA) in 2018 under OMB control number 3090–0316 and was transferred to the Permitting Council in 2020 and became OMB control number 3121–0001. The approval subsequently expired on January 31, 2021. The Permitting

Council seeks to reinstate the approval for the FIN collection of information.

Estimated Burden: The estimated burden for providing the information required by the FIN is as follows:

Respondents: 75.

Responses per Respondent: 1.

Total Annual Responses: 75.

Hours per Response: 2.

Total Burden Hours: 150.

Public Comments: Public comments are invited on whether this collection of information is necessary; whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond.

Obtaining Copies of Proposal:

Requesters may obtain a copy of the information collection documents by emailing legal@permitting.gov, with the subject line, “OMB Control No. 3121–0001.”

Authority: 44 U.S.C. 3501 *et seq.*; 5 CFR part 1320; 42 U.S.C. 4370m–2(a)(1).

Dated: March 30, 2026.

Emily Domenech,

Executive Director, Federal Permitting Improvement Steering Council.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0357, OMB 3060–1028, OMB 3060–1029; FR ID 338463]

Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility;

the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written comments should be submitted on or before June 1, 2026. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, and as required by the PRA of 1995 (44 U.S.C. 3501–3520), the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.
