In the final rule, the EPA included inaccurate amendatory instructions that prevented full incorporation of the final rule into the Code of Federal Regulations (CFR). This correction will ensure the revisions the EPA approved for the Mojave Desert Air Quality Management District's (MDAQD) portion of the California SIP are fully reflected in the CFR.</p> <p><b>DATES:</b> This action is effective on April 2, 2026.</p> <p><b>FOR FURTHER INFORMATION CONTACT:</b> La Kenya Evans-Hopper, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105; telephone number: (415) 972–3245; email address: <a href="mailto:evanshopper.lakenya@epa.gov">evanshopper.lakenya@epa.gov</a>.</p> <p><b>SUPPLEMENTARY INFORMATION:</b> This action corrects an error in the amendatory instructions in a final rulemaking affecting 40 CFR part 52. On January 8, 2026 (91 FR 613), the EPA published a final rule approving amended or rescinded prohibitory and administrative rule revisions adopted by the Mojave Desert Air Quality Management District (MDAQMD) and</p> | <p>submitted by the California Air Resources Board (CARB) as a revision to the California SIP.</p> <p>The EPA's January 8, 2026 final rule included amendatory instructions for section 52.220 (of title 40 of the CFR) to add paragraph (c)(42)(xiii)(G) to read as follows: "(G) Previously approved on June 3, 1980, in paragraph (c)(42)(xiii)(C) of this section and now deleted with replacement in paragraph (c)(610)(i)(D)(7) of this section: Rule 702." However, paragraph (c)(42)(xiii)(G) had already been added by another final rule published at 91 FR 607 on the same day. Due to these inaccurate amendatory instructions, the paragraph that the EPA had intended to add to the CFR through the EPA's final rule published at 91 FR 613 could not be added. The EPA is correcting the error by adding paragraph (c)(42)(xiii)(H) to 40 CFR 52.220 to read: "(H) Previously approved on June 3, 1980, in paragraph (c)(42)(xiii)(C) of this section and now deleted with replacement in paragraph (c)(610)(i)(D)(7) of this section: Rule 702."</p> <p>The EPA has determined that this action falls under the "good cause" exemption in section 553(b)(B) of the Administrative Procedure Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation where public notice and comment procedures are impracticable, unnecessary, or contrary to the public interest. Public notice and comment for this action is unnecessary because the underlying rule for which this correcting amendment has been prepared was already subject to a 30-day comment period. Further, this action is consistent with the purpose and rationale of the final rule for which inaccurate amendatory instructions are being corrected herein. Because this action does not change the EPA's analysis or overall action, no purpose would be served by additional public notice and comment. Consequently,</p> | <p>additional public notice and comment are unnecessary.</p> <p>The EPA also finds that there is good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action. Section 553(d)(3) of the APA allows an effective date of less than 30 days after publication "as otherwise provided by the agency for good cause found and published with the rule." 5 U.S.C. 553(d)(3). The purpose of the 30-day waiting period prescribed in APA section 553(d)(3) is to give affected parties a reasonable time to adjust their behavior and prepare before the final rule takes effect. This rule does not create any new regulatory requirements such that affected parties would need time to prepare before the rule takes effect. This action merely corrects inaccurate amendatory instructions in the previous rulemaking. For this reason, the EPA finds good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action.</p> <p><b>Statutory and Executive Order Reviews</b></p> <p>Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget, and because SIP actions are exempt from review under Executive Order 12866, this action is not subject to Executive Order 14192 (90 FR 9065, February 6, 2025).</p> <p>In addition, because this action merely corrects inaccurate amendatory instructions in a previous rulemaking, this action does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 <i>et seq.</i>); does not impose any enforceable duty or contain any unfunded mandate as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4); does not have federalism implications as specified in Executive Order 13132 (64 FR 43255,</p> |              |

August 10, 1999); is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997); is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note); and does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Because this action is not subject to notice-and-comment requirements under the APA or any other statute, it is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Under 5 U.S.C. 801(a)(1)(A) as added by the Small Business Regulatory Enforcement Fairness Act of 1996, the EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the General Accounting Office prior to publication of this rule in the **Federal Register**. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

#### I. Background and Purpose

On November 28, 2025 (90 FR 54609), EPA published a Notice of Proposed Rulemaking (NPRM) for the State of Connecticut. The NPRM proposed approval of revisions to Connecticut’s New Source Review (NSR) permit program, primarily to clarify applicability for stationary sources in nonattainment areas.

The formal SIP revision was submitted by The Connecticut Department of Energy and Environmental Protection (CT DEEP) on October 3, 2024.<sup>1</sup> CT DEEP submitted a SIP revision containing changes to Regulations of Connecticut State Agencies (RCSA) sections 22a–174–3a(a)(2)(C)(ii), 22a–174–3a(l)(1)(B) and 22a–174–3a(l)(1)(C). These revisions to RCSA became effective, as a matter of state enforceability, on March 14, 2024.

The first revision made by CT DEEP is to RCSA section 22a–174–3a(a)(2)(C)(ii), which references the federal definition of a “non-road engine.” The citation to 40 CFR part 89 in this clause was amended to 40 CFR 1068.30 in order to reflect the correct citation after EPA renumbering. The two other revisions relate to subsection (l) of RCSA section 22a–174–3a, which addresses permit requirements for nonattainment areas. Subparagraph (B) of subdivision (1) of subsection (l) is amended to clarify how the subsection applies to modifications. The revised text provides more detail on how changes to an existing unit may be considered a major modification. The amended text also includes references to the states’ significant emission rate thresholds at Table 3a(k)–1. In subparagraph (C) of the same subdivision, the text is revised to add the phrase “for such pollutant” after “nonattainment area” for clarity.

The rationale for EPA’s proposed action is explained in the NPRM and will not be restated here. No public comments were received on the NPRM.

<sup>1</sup> The Connecticut SIP cover letter lists a submittal date of June 27, 2024, however EPA received this through the online submittal system State Planning Electronic Collaboration System (SPECS) on October 3, 2024.
