

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

In the **Federal Register** of January 22, 2026, 91 FR 2786, HHS published a 60-day notice requesting public comment on the proposed collection of information. No comments were received. OPA is proceeding with this 30-day comment period regarding three-year OMB approval for its revised collection instruments.

Title of the Collection: Teen Pregnancy Prevention Performance Measures Collection.

Type of Collection: Revision.

OMB No.: 0937–0213.

Abstract: The Office of Population Affairs (OPA), in the Office of the Assistant Secretary for Health (OASH), U.S. Department of Health and Human Services (HHS), requests a revision of clearance for the collection of performance measures from FY2023 Teen Pregnancy Prevention (TPP) Program grantees. OPA supports two types of grants through the TPP program: projects that replicate TPP program models that have been shown to be effective through rigorous evaluation (Tier 1), and research and demonstration projects that develop and test additional models and innovative strategies to prevent teen pregnancy (Tier 2). Collection of performance measures is a requirement of all TPP awards and is in the Notice of Funding Opportunities (NOFOs). The data collection allows OPA to comply with federal accountability and performance requirements, inform stakeholders of grantee progress in meeting TPP program goals, provide OPA with

metrics for monitoring FY2023 TPP grantees, and facilitate individual grantees' continuous quality improvement efforts within their projects. OPA revised the original clearance to update the estimated number of respondents provided in the original clearance to reflect the number of actual grantees awarded: Tier 1 respondents decreased by 12 (from 70 to 58), Tier 2 Hubs respondents decreased by 4 (from 10 to 6) and Tier 2 Rigorous Impact respondents decreased by 1 (from 16 to 15). The decrease in respondents reduced total burden by 222 hours (from 1,431 hours to 1,209 hours). OPA added one new item to the Tier 2 Hubs form (prototypes developed per reporting period). Grantees are already collecting prototypes per period to report another approved item (the total number of prototypes developed to date), and this item should not change the burden estimated for the form. OPA requests clearance for three years.

ANNUALIZED BURDEN HOUR TABLE

Forms (if necessary)	Respondents (if necessary)	Number of respondents	Number of responses per respondent	Average burden per response (hours)	Total burden hours

Agency Information Collection Request. 60-Day Public Comment Request

AGENCY: Office of the Secretary, Assistant Secretary for Financial Resources (ASFR), HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the

following summary of a proposed collection for public comment.

DATES: Comments on the ICR must be received on or before June 1, 2026.

ADDRESSES: When commenting, please reference the document identifier/OMB control number OS–4040–0010 and title of collection, “Project/Performance Site Location(s), Project Abstract, and Key Contacts forms”. You may send your comments electronically to sagal.musa@hhs.gov or by calling (202) 578–5441.

FOR FURTHER INFORMATION CONTACT: To obtain copies of supporting material or when submitting comments for the proposed collection(s) summarized in this notice, please include the document identifier 4040–0010–60D and project title for reference, to Sagal Musa, email: sagal.musa@hhs.gov, or call (202) 578–5441.

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of

information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Project/Performance Site Location(s), Project Abstract, and Key Contacts forms.

Type of Collection: Extension.

OMB No.: 4040–0010.

Abstract: The Project/Performance Site Location(s), Project Abstract, and Key Contacts forms provide the Federal grant-making agencies an alternative to the Standard Form 424 data set and form. Agencies may use Project/Performance Site Location(s), Project Abstract, and Key Contacts forms for grant programs not required to collect

all the data that is required on the SF-424 core data set and form. Project/Performance Site Location(s), Project Abstract, and Key Contacts forms are

used by organizations to apply for Federal financial assistance in the form of grants. This form is submitted to the Federal grant-making agencies for

evaluation and review. The information collection (IC) expires on December 31, 2026. *Grants.gov* seeks a three-year clearance extension of these collections.

ANNUALIZED BURDEN HOUR TABLE

Forms (if necessary)	Respondents (if necessary)	Number of respondents	Number of responses per respondents	Average burden per response (hours)	Total burden hours
Project/Performance Site Location(s)	Grant Applicants	171,771	1	1	171,771
Project Abstract	Grant Applicants	3,992	1	1	3,992
Key Contacts	Grant Applicants	6,075	1	1	6,075
Total					181,838

The estimated annual burden hours reflect the number of applications *Grants.gov* received during the most recent fiscal year that included these forms. The increase is attributable to higher form usage by agencies in application packages, not to changes to the forms or burden per response.
