Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

m. *Description of Request*: The licensee proposes to remove the remaining 3-foot-high wooden flashboard system located atop approximately two-thirds of the dam crest and replace it with a pneumatic flashboard system. The purpose of the proposed pneumatic flashboard system is because conventional wooden flashboards fail annually from high flows in the river, and often multiple times each year. The proposed pneumatic system consists of steel plates supported by inflatable air bladders that can be raised or lowered in response to operational needs or flood events. The proposed system would enhance operational control at the spillway and improve the dam safety program at the Beebee Island Project. The system would improve operational efficiency, and would provide more stable environmental conditions by reducing reservoir elevation fluctuations.

The licensee proposes a drawdown of approximately 1.0 foot below the crest of the dam for a duration of approximately six weeks to install the pneumatic flashboard system. Reservoir elevation would be returned to normal following construction activities. No new ground disturbance is expected. The proposed work would have no effect on the minimum flow release of the project. Temporary and minor disturbances to turbidity during installation would be minimized through best management practices and adherence to applicable environmental regulations.

n. *Locations of the Application*: This filing may be viewed on the

Commission's website at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. o. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

p. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

q. *Filing and Service of Documents*: Any filing must (1) bear in all capital letters the title “COMMENTS”, “PROTEST”, or “MOTION TO INTERVENE” as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.
