#### New England Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meetings.

**SUMMARY:** The New England Fishery Management Council (Council) is conducting five scoping meetings to solicit comments on ideas for fishery improvements in the monkfish and skate fisheries. The scoping is designed to identify the challenges the monkfish and skate fishing sectors are grappling with and to identify possible management measures for the Council to address those challenges in the future. In June of 2026, the Council will consider comments received during scoping and in December of 2026, the Council will consider these comments when developing 2027 Council work priorities. Given monkfish is jointly

managed with the Mid-Atlantic Council, during its August 2026 meeting, the Mid-Atlantic Council will receive the same scoping summary and an update on any outcomes of the June 2026 New England Council meeting.

**Agenda**

Council staff will brief the public on prior monkfish and skate priority ideas, recent monkfish catch per unit effort (CPUE) project review information, and the Monkfish and Skate 2025 Joint Management Summary Report before receiving comments. Staff seek feedback on gear-type dynamics, skate fishery components, and the differences between the northern and southern monkfish components to help the Council articulate and prioritize management objectives for both

fisheries in the future. These meetings will begin promptly at the time indicated above. If all attendees who wish to do so have provided their comments prior to the end time indicated, the meeting may conclude early. To the extent possible, the Council may extend scoping meetings beyond the end time indicated above to accommodate all attendees who wish to speak.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
