

CSAPR trading program regulations set forth procedures for identifying eligible units during each control period and for allocating allowances from the NUSAs and Indian country NUSAs to these units.^{1 2} Each NUSA allowance allocation process involves allocations to eligible units, termed “new” units, followed by allocations to “existing” units of any remaining allowances.

This notice concerns the EPA’s final calculations for the NUSA allowance allocations for the 2025 control periods. Generally, under the allocation procedures, each eligible new unit receives a 2025 NUSA allocation equal to its 2025 control period emissions as reported under 40 CFR part 75. If the total of such allocations to all eligible units exceeds the amount of allowances in the NUSA, the EPA reduces the allocations on a pro-rata basis. The EPA does not consider a unit’s emissions that occur before its monitor certification deadline as occurring during a control period and thus does not include these emissions for determining NUSA allocations.³ After allocating allowances to eligible new units in a state (or Indian country), the EPA allocates remaining allowances to the state’s existing units in proportion to those units’ previous allocations from the portion of the state’s emissions budget for the control period that was not reserved in a NUSA (or Indian country NUSA).

On March 2, 2026, the EPA published a notice of data availability (NODA) in the **Federal Register** announcing the preliminary NUSA allowance allocations for the 2025 control periods and explaining how to submit objections.⁴ The EPA received no objections to the March 2, 2026, NODA. This NODA provides the final NUSA allowance allocations. The EPA made

² The EPA has no plans to determine NUSA allowance allocations for the 2025 control period under the CSAPR NO_x Ozone Season Group 3 Trading Program regulations at 40 CFR 97.1012. In response to judicial stay orders, the EPA has administratively stayed the implementation of that program for all sources for the 2024 control period. This program implementation will remain stayed for future control periods unless and until provided otherwise in a future rulemaking. See 88 **Federal Register** (FR) 49295 (July 31, 2023); 88 FR 67102 (September 29, 2023); 89 FR 87960 (November 6, 2024).

³ See 40 CFR 97.406(c)(3), 97.506(c)(3), 97.606(c)(3), 97.706(c)(3), and 97.806(c)(3).

no changes between the preliminary and final 2025 NUSA sheets.

The EPA sets forth detailed, unit-by-unit data and final allowance allocation calculations for new units in Excel spreadsheets titled “CSAPR_NUSA_2025_NO_x_Annual_Final_Data_New_Units,” “CSAPR_NUSA_2025_NO_x_OS_Final_Data_New_Units,” and “CSAPR_NUSA_2025_SO₂_Final_Data_New_Units,” which are available online at <https://www.epa.gov/csapr/csapr-allowance-allocations#nusa>. Each spreadsheet contains a separate worksheet for every state covered by that program and shows, for each unit identified as eligible for a NUSA allocation, (1) the unit’s emissions in the 2025 control period (annual or ozone season, as applicable), (2) the maximum 2025 NUSA allowance allocation for the unit (typically the unit’s emissions in the 2025 control period), (3) various adjustments to the unit’s maximum allocation if the NUSA pool is oversubscribed, and (4) the final calculation of the unit’s 2025 NUSA allowance allocation.

Each state worksheet for new units also contains a summary showing (1) the quantity of allowances initially available in that state’s 2025 NUSA, (2) the sum of the 2025 NUSA allowance allocations to new units in that state, assuming that there are no corrections to the data, and (3) the quantity of allowances that would remain in the 2025 NUSA for allocation to existing units, assuming that there are no corrections to the data.

The EPA sets forth final calculations of allocations of the remaining unallocated allowances to existing units in Excel spreadsheets titled “CSAPR_NUSA_2025_NO_x_Annual_Final_Data_Existing_Units,” “CSAPR_NUSA_2025_NO_x_OS_Final_Data_Existing_Units,” and “CSAPR_NUSA_2025_SO₂_Final_Data_Existing_Units,” which are available at the same online location.

The EPA notes that an allocated allowance, or lack thereof, to a given unit under a CSAPR trading program does not constitute a determination that the trading program does or does not apply to the unit. The EPA also notes that, under 40 CFR 97.411(c), 97.511(c), 97.611(c), 97.711(c), and 97.811(c), allocations are subject to potential correction if a unit with allocated allowances for a given control period is not an affected unit as of the start of that control period.

(Authority: 40 CFR 97.411(b), 97.511(b), 97.611(b), 97.711(b), and 97.811(b).)
