

(5) Where paragraph (7) of EASA AD 2025–0067 specifies “no discrepancy”, this AD requires replacing that text with “no cracking”.

(6) This AD does not adopt the “Remarks” section of EASA AD 2025–0067.

(i) No Reporting Requirement

Although the material referenced in EASA AD 2025–0067 specifies to submit certain information to the manufacturer, this AD does not include that requirement.

(j) Additional AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, AIR–520, Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the Continued Operational Safety Branch, send it to the attention of the person identified in paragraph (k) of this AD and email to: AMOC@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, AIR–520, Continued Operational Safety Branch, FAA; or EASA; or Airbus SAS’s EASA DOA. If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Required for Compliance (RC)*: Except as required by paragraphs (h)(3), (h)(4), and (j)(2) of this AD, if any material contains procedures or tests that are identified as RC, those procedures and tests must be done to comply with this AD; any procedures or tests that are not identified as RC are recommended. Those procedures and tests that are not identified as RC may be deviated from using accepted methods in accordance with the operator’s maintenance or inspection program without obtaining approval of an AMOC, provided the procedures and tests identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to procedures or tests identified as RC require approval of an AMOC.

(k) Additional Information

For more information about this AD, contact Nicholas Benson, Aviation Safety Engineer, FAA, 2200 South 216th St., Des Moines, WA 98198; phone: 206–231–3647; email: nicholas.h.benson@faa.gov.

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference of the material listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this material as applicable to do the actions required by this AD, unless this AD specifies otherwise.

(i) European Union Aviation Safety Agency (EASA) AD 2025–0067, dated March 28, 2025.

(ii) [Reserved]

(3) For EASA material identified in this AD, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 8999 000; email ADs@easa.europa.eu; website easa.europa.eu. You may find this material on the EASA website at ad.easa.europa.eu.

(4) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit www.archives.gov/federal-register/cfr/ibr-locations or email fr.inspection@nara.gov.

Issued on April 10, 2026.

Brian Knaup,

Acting Deputy Director, Integrated Certificate Management Division, Aircraft Certification Service.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1, 2, 25, 27, and 101

[GN Docket Nos. 18–122, 25–59; DA 26–341; FR ID 340668]

Wireless Telecommunications Bureau Refreshes Record on Lower C-Band Petitions for Reconsideration

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) seeks to refresh the record on pending petitions for reconsideration of the Commission’s 2020 Report and Order in the Expanding Flexible Use of the 3.7 to 4.2 GHz Band rulemaking (2020 C-band R&O) in light of certain technical proposals in the 2025 Notice of Proposed Rulemaking in the Upper C-band (3.98–4.2 GHz) rulemaking (Upper C-band NPRM) and the responsive record thereto, seeking a harmonized approach across the entire C-band.

DATES: Comments are due on or before May 5, 2026.

ADDRESSES: Pursuant to §§ 1.415 and 1.419 of the Commission’s rules, 47 CFR 1.415, 1.419, interested parties may file comments using the Commission’s Electronic Comment Filing System (ECFS). You may submit comments, identified by GN Docket Nos. 18–122

and 25–59, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the internet by accessing the ECFS: <https://www.fcc.gov/ecfs>.

- *Paper Filers:* Parties who choose to file by paper must file an original and one copy of each filing.

- Filings can be sent by hand or messenger delivery, by commercial courier, or by the U.S. Postal Service. All filings must be addressed to the Secretary, Federal Communications Commission.

- Hand-delivered or messenger-delivered paper filings for the Commission’s Secretary are accepted between 8:00 a.m. and 4:00 p.m. by the FCC’s mailing contractor at 9050 Junction Drive, Annapolis Junction, MD 20701. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.

- Commercial courier deliveries (any deliveries not by the U.S. Postal Service) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

- Filings sent by U.S. Postal Service First-Class Mail, Priority Mail, and Priority Mail Express must be sent to 45 L Street NE, Washington, DC 20554.

- *People with Disabilities:* Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by email: FCC504@fcc.gov or phone: 202–418–0530 or TTY: 202–418–0432. To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202–418–0530.

FOR FURTHER INFORMATION CONTACT: For additional information regarding this Public Notice, please contact Andrew McArdell of the Wireless Telecommunications Bureau, at (202) 418–1576 or Andrew.McArdell@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s document (*Public Notice*), in GN Docket Nos. 18–122 and 25–59; DA 26–341, released on April 10, 2026. This action was taken pursuant to delegated authority under 47 CFR 0.331. The full text of this document is available electronically via the FCC’s Electronic Document Management System (EDOCS) website at <https://www.fcc.gov/edocs> (search using DA number) or via the FCC’s Electronic Comment Filing System (ECFS) website at <https://www.fcc.gov/ecfs> (search using docket number). (Documents will

be available electronically in ASCII, Microsoft Word, and/or Adobe Acrobat.)

Ex Parte Presentations. The Commission will treat this proceeding as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with 47 CFR 1.1206(b). In proceedings governed by 47 CFR 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules.

Initial Regulatory Flexibility Analysis. The *Upper C-band NPRM* included an Initial Regulatory Flexibility Analysis (IRFA) pursuant to 5 U.S.C. 603, exploring the potential impact on small entities of the Commission’s proposals. We invite parties to file comments on the IRFA in light of this request to refresh the record.

Providing Accountability Through Transparency Act. Consistent with the Providing Accountability Through Transparency Act, Public Law 118–9, a summary of this document will be

available on <https://www.fcc.gov/proposed-rulemakings>.

Paperwork Reduction Act. The *Public Notice* document may contain proposed new or modified information collections. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to comment on any information collections contained in this document, as required by the Paperwork Reduction Act of 1995, Public Law 104–13.

Synopsis

1. By this *Public Notice*, the Wireless Telecommunications Bureau (Bureau) seeks to refresh the record on pending petitions for reconsideration of the Commission’s *2020 C-band R&O*, released on March 3, 2020 in this proceeding (85 FR 22804), in light of certain technical proposals in the *Upper C-band NPRM*, released on November 21, 2025 (90 FR 56076), and the responsive record thereto, seeking a harmonized approach across the entire C-band. In particular, we seek to refresh the record on a petition for partial reconsideration that was filed by the Aerospace Industries Association and others (AIA Petition) with respect to technical issues in the 3.7–3.98 GHz band (Lower C-band) context that have also been raised in the Commission’s *Upper C-band NPRM*. The AIA Petition asks that the Commission take “appropriate mitigation measures . . . including limitations on technical parameters,” with regard to terrestrial wireless operations in the Lower C-band in recognition of radio altimeter operations in the 4.2–4.4 GHz band. The Bureau also seeks to refresh the record on additional outstanding petitions for reconsideration of the *2020 C-band R&O*, to the extent they remain applicable.

2. In the *Upper C-band NPRM*, the Commission sought comment on proposed technical rules for the Upper C-band based on those that currently apply to the Lower C-band, and asked whether to harmonize the wireless operational environment across the entire C-band. In particular, the Commission asked whether the proposed Upper C-band technical rules, including power levels and OOB limits, should be adjusted to promote coexistence with radio altimeters in the 4.2–4.4 GHz band. With these goals in mind, the Bureau seeks to refresh the record in response to the AIA Petition and others in the Lower C-band proceeding on these technical issues. In specific, we seek to refresh the record on an appropriate limit on spurious

emissions into 4.2–4.4 GHz for Lower C-band operations in light of related discussions with respect to the Upper C-band, and proposals to adopt a 4 Watt Effective Isotropic Radiated Power (EIRP) limit for mobile devices across both bands. The Bureau also seeks to refresh the record on any other appropriate rule changes to align the wireless operational environment in the Lower C-band and Upper C-band. Commenters are encouraged to provide technical details in support of their submissions. Commenters should also address the costs and benefits of potentially changing any technical requirements currently applicable in the Lower C-band to better align with proposed requirements applicable to the Upper C-band.

Federal Communications Commission.

Amy Brett,

Chief of Staff, Wireless Telecommunications Bureau.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 260410–0095; RTID 0648–XF376]

Fisheries of the Exclusive Economic Zone Off Alaska; Cook Inlet; Proposed 2026 Harvest Specifications for Salmon

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; harvest specifications and request for comments.

SUMMARY: NMFS proposes 2026 harvest specifications for the salmon fishery of the Cook Inlet exclusive economic zone (EEZ) Area. This action is necessary to establish harvest limits for salmon during the 2026 fishing year and to accomplish the goals and objectives of the Fishery Management Plan for Salmon Fisheries in the EEZ off Alaska (Salmon FMP). The intended effect of this action is to conserve and manage the salmon resources in Cook Inlet EEZ Area in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

DATES: Comments must be received by April 30, 2026.
