

elements of logistics and program support. The estimated total cost is \$280 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a Major Non-NATO Ally that is an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats by sustaining a credible force that can deter adversaries and participate in CENTCOM operations. Jordan will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Missile Defense Technologies, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the temporary assignment of thirteen U.S. Government and twenty-four contractor representatives to Jordan for a duration of up to five years to support fielding, training, and sustainment activities.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 26–23

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Ku band multi-function radio frequency system (KuMRFS) is a multi-function radar. The radar is capable of providing simultaneous counter-unmanned aircraft systems and counter-rocket, artillery, and mortar air surveillance, and effector support missions. The system leverages M-code global positioning system technology ensuring secure and precise navigation and timing. KuMRFS radar provides three-dimensional target location data enhancing situational awareness for command-and-control systems.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software

elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Jordan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Jordan.

Also included were fifty-four (54) AN/ARC 201 non-COMSEC Very-High Frequency/Frequency Modulation (VHF/FM) radios; fifty-four (54) Ultra High Frequency (UHF) radios (AN/ARC 231 or MXF 4027); twenty-eight (28) Identify Friend or Foe Transponders (APX 123 or APX 119); twenty-seven (27) IDM 401 (Improved Data Modem); twenty-seven (27) Link 16 Datalinks; twenty-seven (27) AN/APR–39D (V)2 Radar Warning Receivers; twenty-seven (27) AN/AVR–2 Laser Warning Receivers; twenty-seven (27) Infrared Countermeasures Dispensers (2 flares, 1 chaff); nine (9) AN/ASN–157 Doppler Radar Velocity Sensors; nine (9) AN/ARN–149(V)3 Automatic Direction Finders (ADF); sixteen (16) remanufactured AN/ARN–149 (V)3 ADFs; nine (9) AN/APN–209 Radar Altimeters; twenty-seven (27) AN/ARN–153 Tactical Airborne Navigation (TACAN) systems; sixteen (16) Manned-Unmanned Teaming International (MUM-Ti) (UPR) Air-to-

Air-to Ground Data Link Systems; twenty-four (24) MUM-Ti (Ground) Air to Air to Ground Data Link Systems; twenty-four (24) 100 gallon Internal Auxiliary Fuel Systems (IAFS); twenty-four (24) 125 gallon Reduced Capacity Crashworthy External Fuel Systems (RCEFS); two (2) IAFS Spares; two (2) IAFS Publications; six (6) IAFS Ground Support Equipment (GSE) Apache Magazine and Auxiliary Tank Transfer Systems (AMATTS); five (5) IDM Software Loader Verifiers (SLV); training devices; helmets; simulators; generators; transportation; wheeled vehicles and organizational equipment; spare and repair parts; support equipment; tools and test equipment; technical data and publications; personnel training and training equipment; U.S. government and contractor engineering, technical, and logistics support services; and other related elements of logistics support. The total estimated program cost was \$4.0 billion. Major Defense Equipment (MDE) constituted \$2.0 billion of this total.

On September 27, 2022, Congress was notified by congressional certification transmittal number 22–01 of the possible sale, under Section 36(b)(5)(C) of the Arms Export Control Act, of MDE items that were previously reported as non-MDE items: fifty-four (54) AN/ARC–231A (RT–1987) radios. The following non-MDE items were also included: M261 2.75-inch Rocket launchers; and AN/AVS–6 Aviator Night Vision Devices (NVDs). The estimated total value of these items was \$39 million. The total MDE value was increased by \$27 million to a total MDE value of \$2.027 billion. The estimated total non-MDE value was decreased by \$15 million (after deducting MDE values previously notified as non-MDE and adding new non-MDE costs), resulting in a total non-MDE value of \$1.985 billion. The total estimated case value was increased to \$4.012 billion. MDE constituted \$2.027 billion of this total.

This transmittal notifies an adjustment to the following previously reported MDE item: the remanufactured Embedded Global Position Systems with Inertial Navigation (EGI) with Multi-Mode Receiver (MMR) are being replaced with thirty-six (36) EGIs with MMR from new procurement. This transmittal also notifies an adjustment to the following previously reported non-MDE item: the remanufactured Longbow Crew Trainer (LCT) is being replaced with a LCT from new procurement. The estimated total value of the new items is \$49.43 million. The estimated MDE value will increase by \$12.4 million to a revised \$2.04 billion.

The estimated non-MDE value will increase by \$37.03 million to a revised \$2.02 billion. The estimated total case value will increase by \$49.43 million to a revised \$4.06 billion.

(iv) *Significance*: The inclusion of this MDE represents an increase in capability over what was previously notified.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of a major non-NATO ally that has been an important force for political stability and economic progress in the Middle East.

(vi) *Sensitivity of Technology*:

The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: January 30, 2026

TRANSMITTAL NO. 26–0C

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY PURSUANT TO SECTION 36(b)(5)(C) OF THE ARMS EXPORT CONTROL ACT)

(i) *Prospective Purchaser*: Government of the United Kingdom

(ii) *Sec. 36(b)(1), AECA Transmittal No.*: 25–45

Date: August 26, 2025

Implementing Agency: Air Force Funding Source: National Funds

(iii) *Description*: On August 26, 2025, Congress was notified by congressional certification transmittal number 25–45 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of engine components, parts, and accessories; major and minor modifications; computer program identification numbers; spare parts, consumables and accessories, and repair and return support; classified and unclassified software delivery and support; classified and unclassified publications and technical documentation; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost was \$861 million. There was no major defense equipment (MDE) associated with this sale.

This transmittal reports on the inclusion of the following non-MDE items: contractor logistics support and other related elements of programmatic, technical, and logistics support. The estimated total value of the new items is \$379 million. The estimated non-MDE value will increase by \$379 million to a revised \$1.24 billion. There is no MDE associated with this potential sale.

(iv) *Significance*: The proposed sale will sustain the United Kingdom's capability to meet current and future threats by ensuring the operational readiness of the Royal Air Force.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a key NATO Ally that is an important force for political stability and economic progress in Europe.
