BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XF638]

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; new 5-year affirmative finding for Panama.

SUMMARY: The NMFS Assistant Administrator (Assistant Administrator) has issued a new 5-year affirmative finding for the Government of Panama under the Marine Mammal Protection Act (MMPA). This affirmative finding will allow the importation into the United States of yellowfin tuna and yellowfin tuna products harvested in the eastern tropical Pacific Ocean (ETP), in compliance with the Agreement on the International Dolphin Conservation Program (AIDCP), by purse seine vessels operating under Panamanian jurisdiction or exported from Panama. NMFS bases the affirmative finding determination on reviews of documentary evidence submitted by the Government of Panama and of information obtained from the Inter-American Tropical Tuna Commission (IATTC).

DATES: This new affirmative finding is effective for the 5-year period of April 1, 2026, through March 31, 2031.

FOR FURTHER INFORMATION CONTACT: Justin Greenman, West Coast Region, NMFS, by mail: 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802, email: justin.greenman@noaa.gov, or phone: (562) 980-3264.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows

for importation into the United States of yellowfin tuna harvested by purse seine vessels in the ETP from a nation with jurisdiction over purse seine vessels with carrying capacity greater than 400 short tons that harvest tuna in the ETP only if the nation has an “affirmative finding” issued by the NMFS Assistant Administrator. See section 101(a)(2)(B) of the MMPA, 16 U.S.C. 1371(a)(2)(B); see also 50 CFR 216.24(f)(6)(i). If requested by the government of such a nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government, IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under AIDCP and its obligations of membership in IATTC. Every 5 years, the government of the harvesting nation must request a new affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS must determine whether the harvesting nation continues to meet the requirements of its 5-year affirmative finding. NMFS does this by reviewing the documentary evidence from the last year. A nation may provide information related to compliance with AIDCP and IATTC measures directly to NMFS on an annual basis or may authorize IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of AIDCP. As a part of the affirmative finding process set forth in 50 CFR 216.24(f)(8), the Assistant Administrator considered documentary evidence submitted by the Government of Panama and obtained from IATTC and has determined that Panama has met the MMPA’s requirements to receive a new 5-year affirmative finding.

After consultation with the Department of State, the Assistant Administrator issued a new 5-year affirmative finding to Panama, allowing the importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by purse seine vessels operating under Panamanian jurisdiction or exported from Panama. Issuance of a

new 5-year affirmative finding for Panama does not affect implementation of an intermediary nation embargo under 50 CFR 216.24(f)(9), which applies to exports from a nation that exports to the United States yellowfin tuna or yellowfin tuna products that was subject to a ban on importation into the United States under section 101(a)(2)(B) of the MMPA, 16 U.S.C. 1371(a)(2)(B).

This new affirmative finding for Panama is for the 5-year period of April 1, 2026, through March 31, 2031, subject to subsequent annual reviews by NMFS.

Dated: April 6, 2026.

Eugenio Piñeiro Soler,

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; Affirmative finding annual renewals for Colombia, Ecuador, El Salvador, Guatemala, Mexico, Peru, and Spain.

SUMMARY: The NMFS Assistant Administrator (Assistant Administrator) has issued affirmative finding annual renewals for the Governments of Colombia, Ecuador, El Salvador, Guatemala, Mexico, Peru, and Spain (referred to hereafter as “The Nations”) under the Marine Mammal Protection Act (MMPA). This affirmative finding will allow the importation into the United States of yellowfin tuna and yellowfin tuna products harvested in the eastern tropical Pacific Ocean (ETP), in compliance with the Agreement on the International Dolphin Conservation Program (AIDCP), by purse seine vessels operating under The Nations’ jurisdiction or exported from The Nations. NMFS bases the affirmative finding determination on reviews of documentary evidence submitted by the Governments of The Nations and of information obtained from the Inter-American Tropical Tuna Commission (IATTC).

DATES: These affirmative finding annual renewals are effective for the 1-year

period of April 1, 2026, through March 31, 2027.

FOR FURTHER INFORMATION CONTACT:

Justin Greenman, West Coast Region, NMFS, by mail: 501 W Ocean Blvd., Suite 4200, Long Beach, CA 90802, email: justin.greenman@noaa.gov, or phone: (562) 980-3264.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows for importation into the United States of yellowfin tuna harvested by purse seine vessels in the ETP from a nation with jurisdiction over purse seine vessels with carrying capacity greater than 400 short tons that harvest tuna in the ETP only if the nation has an “affirmative finding” issued by the NMFS Assistant Administrator. See section 101(a)(2)(B) of the MMPA, 16 U.S.C. 1371(a)(2)(B); see also 50 CFR 216.24(f)(6)(i). If requested by the government of such a nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government, IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under AIDCP and its obligations of membership in IATTC. Every 5 years, the government of the harvesting nation must request a new affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS must determine whether the harvesting nation continues to meet the requirements of its 5-year affirmative finding. NMFS does this by reviewing the documentary evidence from the last year. A nation may provide information related to compliance with AIDCP and IATTC measures directly to NMFS on an annual basis or may authorize IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of AIDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f)(8), the Assistant Administrator considered documentary evidence submitted by the Governments of The Nations and obtained from IATTC and has determined that The Nations have each met the MMPA’s requirements to

receive an affirmative finding annual renewal.

After consultation with the Department of State, the Assistant Administrator issued affirmative finding annual renewals to each of The Nations, allowing the importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by purse seine vessels operating under The Nations’ jurisdiction or exported from The Nations. Issuance of this affirmative finding annual renewal for each of The Nations does not affect implementation of an intermediary nation embargo under 50 CFR 216.24(f)(9), which applies to exports from a nation that exports to the United States yellowfin tuna or yellowfin tuna products that was subject to a ban on importation into the United States under section 101(a)(2)(B) of the MMPA, 16 U.S.C. 1371(a)(2)(B).

These affirmative finding annual renewals for each of The Nations are for the 1-year period of April 1, 2026, through March 31, 2027, subject to subsequent annual reviews by NMFS.

Dated: April 7, 2026.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to the Aak’w Landing Development Project in Juneau, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments.

SUMMARY: NMFS has received a request from Turnagain Marine Construction (TMC) for authorization to take marine mammals incidental to the Aak’w Landing Development Project in Juneau, Alaska. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue the requested Incidental Harassment Authorization (IHA). NMFS is also requesting comments on a possible one-time, 1-year renewal of the

IHA, if issued, under certain circumstances, provided all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the IHA. Agency responses to substantive public comments received in response to this notice will be summarized in the final notice of our decision.

DATES: Comments and information must be received no later than May 15, 2026.

ADDRESSES: Comments should be addressed to the Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, and should be submitted via email to ITP.Daly@noaa.gov. Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>. In case of problems accessing these documents, please call the contact listed below.

Instructions: NMFS is not responsible for comments sent by any other method, to any other address or individual, or received after the end of the comment period. Comments, including all attachments, must not exceed a 25-megabyte file size. All comments received are a part of the public record and will be posted online at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act> without change. All personal identifying information (*e.g.*, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Jaclyn Daly, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Section 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are
