SPL requests blanket authorization to export liquefied natural gas (LNG) previously imported into the United States by vessel from foreign sources in a volume equivalent to 500 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period. SPL filed the Application under the Natural Gas Act (NGA).

DATES: Protests, motions to intervene, or notices of intervention, as applicable, and written comments are to be filed electronically as detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, May 18, 2026.

SUPPLEMENTARY INFORMATION: SPL requests a short-term blanket authorization to export LNG that has been previously imported into the United States from foreign sources for a two-year period commencing on June 7, 2026. SPL states that it will export the LNG from the existing Sabine Pass LNG terminal located in Cameron Parish, Louisiana, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. This includes both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export the LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). SPL states that its existing blanket re-export authorization, set forth in DOE/FECM Order No. 5125 (Docket No. 24-28-LNG), is scheduled to expire on June 6, 2026, and therefore SPL requests the term of the new authorization to commence on June 7, 2026. SPL further states that it does not seek authorization to export domestically produced natural gas or LNG.

SPL requests this authorization on its own behalf and as agent for other parties that hold title to the LNG at the time of export. Additional details can be found in SPL's Application, posted on the DOE website at <https://www.energy.gov/sites/default/files/2026-03/SPL%20DOE%20Re-Export%20Authorization.pdf>.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.
