Abstract: BJS has conducted the CSLLEA regularly since 1992. The 2026 CSLLEA will be the ninth administration. Historically, the CSLLEA generates an enumeration of all publicly funded state, county, and local law enforcement agencies operating in the United States. The 2026 CSLLEA will also include campus law enforcement agencies serving private institutions. The CSLLEA will provide complete personnel counts and an overview of the functions performed for approximately 22,000 law enforcement agencies operating nationally. The survey asks about the level of government that operates the agency; oversight of any agency sub-components; total operating budget; full-time and part-time personnel counts

for sworn, limited sworn, and non-sworn employees; sex of full-time sworn, limited sworn, and non-sworn personnel; race and Hispanic origin of full-time sworn officers; and the functions the agency performs on a regular or primary basis. Upon completion, the 2026 CSLLEA will serve as the sampling frame for future law enforcement surveys administered by BJS.

SUPPLEMENTARY INFORMATION:

I. Background

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance

consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Black Lung Benefits Act (BLBA), (30 U.S.C. 901 *et seq.*) provides benefits to coal miners who are totally disabled due to pneumoconiosis (black lung disease) and to certain survivors of miners. Miners entitled to benefits also receive medical benefits for treatment related to their pneumoconiosis and resulting disability. A miner who applies for black lung benefits must complete the CM 911 (Miner's Claim for Benefits Under the Black Lung Benefit's Act). The completed form gives basic identifying information about the applicant and is the beginning of the development of the black lung claim. 20 CFR 725.304(a) authorizes this information collection. The CM-911a (Employment History), when completed, provides a complete history of the miner's employment and helps to establish whether the individual currently or formerly worked in the nation's coal mines and how long that employment lasted. 20 CFR 725.404(a) authorizes this information collection. This information collection is currently approved for use through October 31, 2026.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays
