SUPPLEMENTARY INFORMATION:

Title: Special Need Requests Under the Plant Protection Act.

OMB Control Number: 0579–0291.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the

United States or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, which administers regulations to implement the PPA. Regulations governing the interstate movement of plants, plant products, and other articles are contained in 7 CFR part 301, “Domestic Quarantine Notices.” The regulations in “Subpart A-Preemption and Special Need Requests” allow States or political subdivisions of States to request approval from APHIS to impose prohibitions or restrictions on the movement in interstate commerce of specific articles that pose a plant health risk that are in addition to the prohibitions and restrictions imposed by APHIS. This process requires information collection activities, including a pest data detection survey with a pest risk analysis showing that a pest is not present in a State, or if already present, the current distribution in the State, and that the pest would harm or injure the environment and/or agricultural resources of the State or political subdivision.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 160 hours per response.

Respondents: State governments.

Estimated annual number of respondents: 1.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 1.

Estimated total annual burden on respondents: 160 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 15th day of April 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.

Disposable Aluminum Containers, Pans, Trays, and Lids From the People's Republic of China: Preliminary Affirmative Determination of Circumvention of the Antidumping Duty and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that imports of disposable aluminum containers, pans, trays, and lids (aluminum containers), completed in Thailand using aluminum foil produced in the People's Republic of China (China), are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on aluminum containers from China. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable April 20, 2026.

FOR FURTHER INFORMATION CONTACT: Justin Enck at (202) 482-1614 and Ann Marie Caton at (202) 482-2607, Office of Policy, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On May 8, 2025 and May 21, 2025, Commerce published in the **Federal Register** the AD and CVD orders on aluminum containers from China.¹ On July 11, 2025, Commerce initiated a country-wide circumvention inquiry pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), to determine whether imports of aluminum containers completed in Thailand using aluminum foil manufactured in China are circumventing the *Orders* and, accordingly, should be covered by the scope of the *Orders*.² On August 20, 2025, Commerce selected, in alphabetical order, Peak Legends (Thailand) Co., Ltd. (Peak Legends) and Wohler Household Products (Thailand) Co., Ltd (Wohler Thailand) as the mandatory respondents in this circumvention inquiry.³

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days.⁴ Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.⁵ On January 16, 2026, Commerce extended the deadline for issuing the preliminary determination in this circumvention inquiry by 60 days.⁶ Accordingly, the
