AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that imports of disposable aluminum containers, pans, trays, and lids (aluminum containers), completed in Thailand using aluminum foil produced in the People's Republic of China (China), are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on aluminum containers from China. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable April 20, 2026.

FOR FURTHER INFORMATION CONTACT: Justin Enck at (202) 482-1614 and Ann Marie Caton at (202) 482-2607, Office of Policy, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On May 8, 2025 and May 21, 2025, Commerce published in the **Federal Register** the AD and CVD orders on aluminum containers from China.¹ On July 11, 2025, Commerce initiated a country-wide circumvention inquiry pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), to determine whether imports of aluminum containers completed in Thailand using aluminum foil manufactured in China are circumventing the *Orders* and, accordingly, should be covered by the scope of the *Orders*.² On August 20, 2025, Commerce selected, in alphabetical order, Peak Legends (Thailand) Co., Ltd. (Peak Legends) and Wohler Household Products (Thailand) Co., Ltd (Wohler Thailand) as the mandatory respondents in this circumvention inquiry.³

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days.⁴ Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.⁵ On January 16, 2026, Commerce extended the deadline for issuing the preliminary determination in this circumvention inquiry by 60 days.⁶ Accordingly, the

deadline for this preliminary determination is now April 15, 2026.

For a complete description of the events that followed the initiation of this circumvention inquiry, *see* the Preliminary Decision Memorandum.⁷ The Preliminary Decision Memorandum is a public document and is on file electronically via ACCESS. ACCESS is available to registered users at <https://access.trade.gov>. Scope of the Orders

The merchandise subject to the *Orders* is disposable aluminum containers, pans, trays, and lids produced primarily from flat-rolled aluminum. For a full description of the scope of the *Orders*, *see* the Preliminary Decision Memorandum.⁸

Merchandise Subject to the Circumvention Inquiry

This circumvention inquiry covers aluminum containers assembled and completed in the Thailand using Chinese-origin aluminum foil, that is subsequently exported from Thailand to the United States (inquiry merchandise).

Methodology

Commerce is conducting this circumvention inquiry in accordance with section 781(b) of the Act and 19 CFR 351.226. For a complete description of the methodology underlying the preliminary determination, *see* the Preliminary Decision Memorandum. A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix I to this notice.

Preliminary Circumvention Determination

As detailed in the Preliminary Decision Memorandum, Commerce preliminarily determines that aluminum containers completed in Thailand using Chinese-origin aluminum foil and subsequently exported from Thailand to the United States is circumventing the *Orders* on a country-wide basis. As a result, in accordance with section 781(b) of the Act, we preliminarily determine that this merchandise should be included within the scope of the *Orders*.

See the “Suspension of Liquidation and Cash Deposit Requirements” section below for details regarding suspension of liquidation and cash deposit requirements. *See* the “Certifications” and “Certification Requirements” sections below for details regarding the use of certifications.

Suspension of Liquidation and Cash Deposit Requirements

Based on the preliminary affirmative country-wide determination of circumvention with respect to Thailand, in accordance with 19 CFR 351.226(l)(2), Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of inquiry merchandise that were entered, or withdrawn from warehouse, for consumption, on or after October 28, 2024,⁹ the date of Commerce’s first imposition of provisional measures under the CVD order.¹⁰

Aluminum containers completed in Thailand from aluminum foil that is not of Chinese origin is not subject to this inquiry. Therefore, cash deposits are not required for such merchandise under the *China Orders*. However, Commerce preliminarily finds that aluminum containers completed in Thailand using China-origin aluminum foil is circumventing the AD and CVD orders on aluminum containers from China. Imports of aluminum containers completed in Thailand are subject to certification requirements, and cash deposits may be required.

Entries for which the importer and exporter have met the certification and documentation requirements described below and in Appendix II of this notice will not be subject to suspension of liquidation or the cash deposit requirements.

In accordance with 19 CFR 351.228(b), where the certification and documentation requirements are not met for an entry, Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the rates applicable to the AD and CVD *Orders* on aluminum containers from China (*i.e.*, the AD cash deposit rate established for the China-wide entity (287.80 percent) and the CVD cash deposit rate established for all-others (317.85

percent) under the following third-country case numbers: A–549–170 and C–549–171, and may instruct CBP to assess antidumping or countervailing duties at the applicable rate. For companies with their own company-specific rate under the *China Orders*, the cash deposit rate will be the company-specific rate.

These suspension of liquidation requirements will remain in effect until further notice.

Certifications

To administer the preliminary affirmative country-wide determination of circumvention for Thailand, Commerce established importer and exporter certifications, which allow companies to certify that specific entries of aluminum containers from Thailand are not subject to suspension of liquidation or the collection of cash deposits pursuant to this preliminary affirmative country-wide determination of circumvention because the merchandise is not made with Chinese-origin aluminum foil or is made with an input other than aluminum foil (*see* Appendix II to this notice).

Importers and exporters that claim that the entry of aluminum containers is not subject to suspension of liquidation or the collection of cash deposits because the merchandise is not made with Chinese-origin aluminum foil or is made with an input other than aluminum foil must complete the applicable certification and meet the certification and documentation requirements described below, as well as the requirements identified in the applicable certification.

Certification Requirements

Importers are required to complete and maintain the applicable importer certification, and maintain a copy of the applicable exporter certification, and retain all supporting documentation for both certifications. With the exception of the entries described below, the importer certification must be completed, signed, and dated by the time the entry summary is filed for the relevant entry.

The importer, or the importer’s agent, must submit the importer’s certification, the exporter’s certification, the commercial invoice, the bill of lading, and the aluminum mill certificate for the aluminum input used to produce the aluminum containers (*e.g.*, aluminum foil), to CBP at the time of entry by uploading these documents into the document imaging system (DIS) in ACE. The aluminum mill certificates must identify the country of smelt and cast. Where the importer uses a broker to

facilitate the entry process, the importer should obtain the entry summary number from the broker. Agents of the importer, such as brokers, however, are not permitted to certify on behalf of the importer. Consistent with CBP's procedures, importers shall identify certified entries by using importers' additional declaration (record 54) AD/CVD Certification Designation (type code 06) when filing an entry summary.¹¹

Exporters are required to complete and maintain the applicable exporter certification and provide the importer with a copy of that certification and all supporting documentation (e.g., invoice, purchase order, production records, mill certificates, etc.). With the exception of the entries described below, the exporter certification must be completed, signed, and dated by the time of shipment of the relevant entries. The exporter certification should be completed by the party selling the aluminum containers that were manufactured in Thailand and exported to the United States.

Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce or CBP. Importers and exporters are required to maintain the certifications and supporting documentation until the later of: (1) the date that is five years after the latest entry date of the entries covered by the certification; or (2) the date that is three years after the conclusion of any litigation in United States courts regarding such entries.

For all aluminum containers from Thailand that were entered, or withdrawn from warehouse, for consumption during the period October 28, 2024 (the date of the first imposition of provisional measures under the CVD order), through May 6, 2026, where the entry has not been liquidated (and entries for which liquidation has not become final), the importer and exporter certifications should be completed and signed as soon as practicable, but not later than June 5, 2026. The importer/exporter certifications, commercial invoice, bill of lading, and the aluminum mill certificate for the aluminum input used to produce the aluminum containers (e.g., aluminum foil) should be uploaded to the DIS in ACE as soon as practicable, but not later than June 5, 2026. For such entries, importers and exporters have the option

to complete a blanket certification covering multiple entries, individual certifications for each entry, or a combination thereof.

For unliquidated entries (and entries for which liquidation has not become final) of aluminum containers that were declared as non-AD or non-CVD type entries (e.g., type 01) and entered, or withdrawn from warehouse, for consumption in the United States during the period October 28, 2024 (the date of the first imposition of provisional measures under the CVD order) through May 6, 2026, for which none of the above certifications may be made, importers must file a Post Summary Correction with CBP, in accordance with CBP's regulations, regarding conversion of such entries from non-AD/CVD type entries to AD/CVD type entries (e.g., from type 01 to type 03). Importers must report those AD/CVD type entries using the third country case numbers identified in the "Suspension of Liquidation and Cash Deposit Requirements" section, above. The importer must pay cash deposits on those entries consistent with the regulations governing post summary corrections that require payment of additional duties.

Interested parties may comment on these certification requirements, and on the certification language contained in Appendix II to this notice in their case briefs.

SUPPLEMENTARY INFORMATION:

Background

On May 8, 2025 and May 21, 2025, Commerce published in the **Federal Register** the AD and CVD orders on aluminum containers from China, respectively.¹ On July 11, 2025, Commerce initiated a country-wide circumvention inquiry pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), to determine whether imports of aluminum containers completed in Vietnam using aluminum foil manufactured in China are circumventing the *Orders* and, accordingly, should be covered by the scope of the *Orders*.² On August 20, 2025, Commerce selected Able Ready Packaging Co. Ltd. (Able) as the mandatory respondent in this circumvention inquiry.³

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days.⁴ Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government
